1. **Course:** CPSC 219: Introduction to Computer Science for Multidisciplinary Studies II  
   **Lecture Sections:**  
   L01, MTWR 16:00-16:50, James Tam, ICT 707, 210-9455, tam@ucalgary.ca  
   Office Hours: T 14:00-14:50 WR 15:00-15:30  

   **Course Website:**  
   Computer Science Department Office, ICT 602, 220-6015, cpsc@cpsc.ucalgary.ca  

2. **Prerequisites:** CPSC 217  
   (http://www.ucalgary.ca/pubs/calendar/current/computer-science.html#3620)  

3. **Grading:** The University policy on grading and related matters is described in sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:  
   - Assignments and Tutorial Components: 35%  
   - Midterm Examination #1: 15%  
     *(In-Class Thursday February 9th, 2017)*  
   - Midterm Examination #2: 15%  
     *(In-Class Thursday March 9th, 2017)*  
   - Final Examination: 35%  

   This course will have a Registrar’s Scheduled Final Exam.  

   Special Regulations affecting Final grade: Each component will be awarded a grade point from 0.0, 0.1, 0.2…4.0. Each term grade point will be multiplied by its weight. These values will be summed into the overall term grade point which will then be converted to one of the standard university letter grades. The student must pass the weighted examination component in order to be awarded a grade of C- or higher in the course.  

4. **Missed Components of Term Work:** The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar, Section 3.6. It is the student’s responsibility to familiarize themselves with these regulations. See also Section E.6 of the University Calendar.  

5. **Scheduled Out-of-Class Activities:** REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME ACTIVITY. If you have a clash with this out-of-class activity, please inform your instructor as soon as possible so that alternative arrangements can be made.  

6. **Course Materials:**  

   **Online Course Components:**  
   None.  

7. **Examination Policy:** Closed book. NO AIDS OF ANY KIND are allowed during examinations. Students should also read the Calendar, Section G, on examinations.  

8. **Approved Mandatory and Optional Course Supplemental Fees:** None.
9. **Writing across the Curriculum Statement:** In this course, the quality of the student's writing in the weighted components of the course will be a factor in the evaluation of these components. See also Section E.2 of the University Calendar.

10. **Human Studies Statement:** Students will be expected to participate as subjects or participants in projects. See also Section E.5 of the University Calendar.

11. **OTHER IMPORTANT INFORMATION FOR STUDENTS:**

   a) **Misconduct:** Academic misconduct (cheating, plagiarism, or any other form) is a very serious offense that will be dealt with rigorously in all cases. A single offence may lead to disciplinary probation or suspension or expulsion. The Faculty of Science follows a zero tolerance policy regarding dishonesty. Please read the sections of the University Calendar under Section K, Student Misconduct to inform yourself of definitions, processes and penalties.

   b) **Assembly Points:** In case of emergency during class time, be sure to FAMILIARIZE YOURSELF with the information on assembly points which can be found in each classroom and building.

   c) **Student Accommodations:** Students needing an Accommodation because of a Disability or medical condition should contact Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities available at [http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf](http://www.ucalgary.ca/policies/files/policies/procedure-for-accommodations-for-students-with-disabilities_0.pdf). Students needing an Accommodation in relation to their coursework or to fulfil requirements for a graduate degree, based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to the Associate Head of Computer Science.

   d) **Safewalk:** Campus Security will escort individuals day or night ([http://www.ucalgary.ca/security/safewalk/](http://www.ucalgary.ca/security/safewalk/)). Call 403-220-5333 for assistance. Use any campus phone, emergency phone or the yellow phones located at most parking lot pay booths.

   e) **Freedom of Information and Privacy:** This course is conducted in accordance with the Freedom of Information and Protection of Privacy Act (FOIPP). As one consequence, students should identify themselves on all written work by placing their name on the front page and their ID number on each subsequent page. For more information see also [http://www.ucalgary.ca/secretariat/privacy](http://www.ucalgary.ca/secretariat/privacy).

   f) **Student Union Information:** VP Academic (403) 220-3911 suvpaca@ucalgary.ca SU Faculty Rep (403) 220-3913 science1@su.ucalgary.ca, science2@su.ucalgary.ca and science3@su.ucalgary.ca, Student Ombuds Office: (403) 220-6420 ombuds@ucalgary.ca, [http://ucalgary.ca/provost/students/ombuds](http://ucalgary.ca/provost/students/ombuds).

   g) **Internet and Electronic Device Information:** You can assume that in all classes that you attend your cell phone should be turned off unless instructed otherwise. All communications with other individuals via laptop computers, cell phones or other devices connectable to the internet in not allowed during class time unless specifically permitted by the instructor. If you violate this policy you may be asked to leave the classroom. Repeated abuse may result in a charge of misconduct.

   h) **U.S.R.I.:** At the University of Calgary feedback provided by students through the Universal Student ratings of Instruction (USRI) survey provides valuable information to help with evaluating instruction, enhancing learning and teaching, and selecting courses ([www.ucalgary.ca/usri](http://www.ucalgary.ca/usri)). Your responses make a difference – please participate in USRI surveys.

CPSC 219 Syllabus

• Introduction to Java programming
• Introduction to Object-Oriented programming
• Advanced Java
• Hierarchies
• Introduction to graphical user interfaces
• Exceptions and files
• Design patterns and Java history (if there is time)
• Packages (if there is time)

Learning Outcomes:

• Write/trace a Java program that use core programming concepts such as branching and loops.
• Describe the difference between the procedural and Object-Oriented approach for program decomposition.
• Describe core Object-Oriented concepts such as encapsulation and inheritance as well as apply these concepts in practice in an actual program.
• Represent classes and class relationships diagrammatically using the UML (Unified Modeling Language).
• Write/trace an event-driven Java program that employs a graphical user interface.
• Write/trace a program that employs the Java event handling model for error handling.
• Write/trace a program that employs Java text-based file input or output classes/
• Write/trace a recursive equivalent of an iterative implementation and given there is time in semester students can implement more complex problems.
• Define a design pattern as well as specify some common design patterns and indicate when they should be used.
**Allowable Sources:**

Students are forbidden from using or even seeing the assignment solutions of other students.

**Cited Sources:**

If you used an article, book, function or algorithm that you did not create for this course you must clearly cite it. The marker must be able to clearly and unambiguously see which parts you completed and which parts came from an external source. If citing a website, make sure you include the date you accessed the website. Don't forget to cite code that you used, even if you modified the code.

**Level of Collaboration between Students:**

No group work is allowed for this class. Each student must individually submit their own work.

**Disclosure Policy**

You may discuss the assignments with other students in the class but do NOT share any paper or electronic work. Do not ask others to provide you with solutions and do not show solutions that you have created for assignments to other students.
