## **KEYNOTE ADDRESS** **1**

### **"The Future of GNSS: New Capabilities, Performance and Issues"**

*- Keith McDonald, Navtech Seminars, Inc., Alexandria, VA*

## **Session 1 - NAVIGATION AND LOCATION SENSOR TRENDS** **15**

*Co-Chairs: J. Cunningham, NSWC, Dahlgren, VA, USA  
B. Scherzinger, Applanix, Richmond Hill, CDN*

1. **Improvements of GNSS Receiver Performance Using Tightly Coupled INS Measurements** - C. Kreye, B. Eissfeller, T. Lück, Institute of Geodesy and Navigation, University FAF Munich, Germany. 15
2. **GPS Receiver Tracking Loop Design Using  $H_{\infty}$  Control Theory** - G.I. Jee, J.S. Hong, W. Kim, S.H. Kim, GPS System Lab., Konkuk University, Seoul, Korea, C.K. Park, GNC Lab., Kwangwoon University, Seoul, Korea. 26
3. **Measurement of Line Characteristics and of Track Irregularities by Means of DGPS and INS** - T. Lück, B. Eissfeller, C. Kreye, Institute of Geodesy and Navigation, University FAF Munich, Germany, P. Meinke, Computer und Kommunikation GmbH, Germany. 34
4. **Low-Cost GPS Locomotive Location System For High Speed Rail Applications** - K.T. Mueller and R. Bortins, Seagull Technology, Inc, Los Gatos, CA. 42

## **Session 2 - REFERENCE NETWORKS** **52**

*Co-Chairs: S. Malys, NIMA, Bethesda, MD, USA  
M. Craymer, Geodetic Survey of Canada, NRCAN, Ottawa, CDN*

1. **Global IGS/GPS Contribution to ITRF** – R. Ferland, Natural Resources Canada, Ottawa, ON. 52
2. **The North American Reference Frame (NAREF): An Initiative to Densify the ITRF in North America** – M.R. Craymer and M. Piraszewsk, Geodetic Survey Division, NR Canada, Ottawa, ON. 57
3. **State Space Approach for Precise Real Time Positioning in GPS Reference Networks** - G. Wübbena, Geo++, Gesellschaft fuer satellitengestuetzte

geodaetische und navigatorische, Garbsen, Germany, Stefan Willgalis, Institut fuer Erdmessung, Universitaet Hannover, Hannover, Germany.	72
4. <a href="#">Hong Kong GPS Active Network</a> - C. Hu, W. Chen, Y. Chen, and X. Ding, Land Surveying and Geoinformatics, Hong Kong Polytechnic University, S.C. Kowk, Geodetic Survey Section, Lands Department, Hong Kong.	80
<b>Session 3 – EFFECTS ON RF NAVIGATION SIGNALS</b>	<b>87</b>
<i>Co-Chairs S. Skone, University of Calgary, CDN M. Braasch, Ohio University, Athens, OH, USA</i>	
1. <a href="#">Overview of GNSS Signal Degradation Phenomena</a> – G. MacGougan, G. Lachapelle, R. Nayak, Geomatics Engineering University of Calgary, Calgary, AB., and A. Wang, Norwegian University of Science and Technology, Trondheim.	87
2. <a href="#">Adaptive Method for Multipath Mitigation and Its Applications for Structural Deflection Monitoring</a> – A.H Dodson, X. Meng, G.W. Roberts, Institute of Engineering Surveying and Space Geodesy, The University of Nottingham, Nottingham, UK.	101
3. <a href="#">Ionospheric Tomography Using GPS Measurements</a> - Z. Liu and Y. Gao, Geomatics Engineering, University of Calgary. Calgary, AB.	111
4. <a href="#">Preliminary Study on Integrated Water Vapor Estimation from GPS and Meteorological Networks in Korea</a> - J.H. Joh, J.U. Park, H.C. Lim, and P.H. Park, Korea Astronomy Observatory, Taejon, South Korea.	121
5. <a href="#">Limitations in GPS Positioning Accuracies and Receiver Tracking Performance During Solar Maximum</a> - S. Skone, M. El-Gizawy and S.M. Shrestha, Geomatics Engineering, University of Calgary, Calgary, AB.	129
<b>Session 4 - MULTI-SENSOR INTEGRATION AND APPLICATIONS</b>	<b>144</b>
<i>Co-Chairs: N. El-Sheimy, University of Calgary, CDN Huang, UESTC, Chendgu, CHN</i>	
1. <a href="#">Direct Kalman Filtering of GPS/INS for Aerospace Applications</a> - J. Wendel, C. Schlaile, G.F. Trommer, Institut fuer Theoretische Elektrotechnik und Systemoptimierung, Universitaet Karlsruhe, Karlsruhe	144
2. <a href="#">OEM4 Inertial: An Inertial/GPS Navigation System on the OEM4 Receiver</a> - T. Ford, J. Newmann and Mike Bobye, NovAtel Inc, Calgary, AB.	150
3. <a href="#">Autonomous Relative Navigation Methods in the Proximity of the International Space Station</a> - E.G. Lightsey and J. Um, Center for Space Research, The University of Texas at Austin, Austin, TX.	169

4. [Kinematic Attitude Determination from GPS Derived Accelerations and a Tri-Axial Accelerometer](#) - C. Ellum and N. El-Sheimy, Geomatics Engineering, University of Calgary, Calgary, AB. 180
5. [Trajectory Determination for Machine Guidance Systems](#) - G. Retscher, Vienna University of Technology, Applied and Engineering Geodesy, Wien, Austria 193
6. [An Integrated Real Time GPS- and Laser Scanner System for High Precision Guidance in Harsh Environment](#) - S. Thomsen, J.Pert, W. Katrycz, W. Niemeier, Institute of Geodesy and Photogrammetry, Technical University of Braunschweig, Germany, and M.-B. Schaller, Gesellschaft für Geomechanik und Baumesstechnik, Leipzig/Espenhain, Germany. 199
7. [Combining Gyroscopes, Magnetic Compass and GPS for Pedestrian Navigation](#) - Q. Ladetto, V. Gabaglio, B. Merminod, Geodetic Engineering Laboratory, Institute of Geomatics, Lausanne, Switzerland. 205
8. [Reduction of Fog Noise Level During Station Based Surveying of Highly Inclined and Horizontal Wells in the Oil Industry](#) - A. Noureldin, D. Irvine-Halliday, Electrical and Computer Engineering, University of Calgary, H. Tabler, International Downhole Equipment, Ltd, Edmonton, AB. and M. Mintchev, Electrical and Computer Engineering, University of Calgary, Calgary, AB. 213
9. [Airborne Kinematic Positioning and Attitude Determination Without Base Stations](#) - M. Mostafa and J. Hutton, Applanix Corporation, Canada. 221

**Session 5 – ESTIMATION METHODS AND QUALITY CONTROL 229**

*Co-Chairs Y. Gao, University of Calgary, CDN  
P. Teunissen, Delft Univ. of Technology, NL*

1. [Some Remarks on the Quality of Ambiguity-Fixed Short-Baseline GPS Solutions](#) - M.P. Stewart, T.A. Forward, N.T. Penna and M. Jia, Department of Spatial Sciences, Curtin University of Technology, Perth, Western Australia. 229
2. [Integrity Methods Using Carrier Phase](#) - X.W. Chang and C.C. Paige, McGill University, V. Perepetchai, Rolland Virtual Business System Ltd. 235
3. [GNSS Ambiguity Bootstrapping: Theory and Application](#) - P.J.G. Teunissen, Mathematical Geodesy and Positioning, Delft University of Technology, Delft, The Netherlands. 246
4. [Instantaneous Real-time Cycle-slip Correction of Dual-frequency GPS Data](#) - D. Kim and R.B. Langley, Geodetic Research Laboratory, Geodesy and Geomatics Engineering, University of New Brunswick, N.B. 255
5. [Robust Inertially-Aided RTK Position Measurement](#) - B.M. Scherzinger, Applanix Corporation, ON. 265

6. [Time Correlation of GPS Carrier Phase Measurements](#) - J.P. Chauveau, J. Lacroix, C. Bruno, ONERA, Space and Defense Systems Unit, Long-term Design and Systems Integration Department, France. 273
7. [A New Approach for the Mathematical Modeling of the GPS/INS Supported Photo-triangulation using Kalman Filtering Process](#) - A. Azizi, M. A. Sharifi, and J.A. Parian, Surveying and Geomatics Engineering, Faculty of Engineering, University of Tehran, Iran. 280
8. [A Dynamic GPS System for On-Line Structural Monitoring](#) - C. Ogaja, C. Rizos, J. Wang, School of Geomatic Engineering, University of New South Wales, Sydney, Australia, J. Brownjohn, School of Civil and Structural Engineering, *Nanyang Technological University*, Singapore, Singapore. 290
9. [Monitoring of Slope Stability by Using Global Positioning System \(GPS\)](#) - E. Ma, Y. Chen, X. Ding, Land Surveying and Geo-Informatics, The Hong Kong Polytechnic University, Hong Kong. 298

## **Session 6 - ALGORITHMS AND SOFTWARE I** **311**

*Co-Chairs: M. Tsakiri, Curtin University, AUS*

1. [Ambiguity Resolution using Three Carriers – Hardware Simulation and Performance Analysis](#) - U. Vollath, E. Roy, Spectra Precision Terrasat GmbH, Germany. 311
2. [Phase Ambiguity Resolution for Stacked Radar Interferometric Data](#) - R.F. Hanssen, P.J.G. Teunissen, and P. Joosten, Mathematical Geodesy and Positioning, Delft University of Technology, JA Delft, The Netherlands. 317
3. [GPS Measure: An Alternative to a Tape Measure](#) - M. Ueno, CNRS Geosciences Azur Valbonne, France, K. Itani and T. Hayashi, Furuno Electric Co., Ltd. Nishinomiya, Japan. 321
4. [On Methodological Aspects on System Development in High Precision Inertial Pipe Surveying](#) - W. Katrycz, W. Niemeier, Institute of Geodesy and Photogrammetry, Technical University of Braunschweig, Germany. 332
5. [Precise DGPS Positioning and Carrier Phase Ambiguity Resolution Using IMM Kalman Filters](#) - G. Chen and M. Harigae, Flight Division, National Aerospace Laboratory, Tokyo, Japan. 339
6. [Adaptive Kalman Filter for DGPS Positioning](#) - C. Hu, Y. Chen, and W. Chen, Land Surveying and Geoinformatics, Hong Kong Polytechnic University, Hong Kong, D. Liu, Surveying and Geoinformatics, Tongji University, P.R.China. 348
7. [Measurements in Very Wide Frequency Range by Hybrid Combination of RTK \(Real Time Kinematics\) and VD \(Variation Detection\)](#) - H. Isshiki, Technical Research Institute, Hitachi Zosen Corporation, Osaka, T. Kato, Earthquake Research Institute, The University of Tokyo, Tokyo, Y. Terada,

	Technical Research Institute, Hitachi Zosen Corporation, Osaka, A. Tsuchiya, Japan Association of Surveyors, Tokyo, Japan.	354
8.	<a href="#"><u>A Hybrid Algorithm Solution for GPS Antenna Array</u></a> - C. Junqueira, State University of Campinas/Aeronautical and Space Institute, M.V. Ribeiro, J.M.T. Romano, C. Lima, J.B.D. Filho, State University of Campinas (UNICAMP) - Campinas – SP- Brazil	363
9.	<a href="#"><u>Variance-covariance Modelling of Tropospheric Errors for Precise Kinematic Positioning Via Rigorous Network Adjustment</u></a> - R.S. Radovanovic, N. El-Sheimy, W.F. Teskey, Geomatics Engineering, University of Calgary, Calgary, AB.	375
	<b>Session 7 - ALGORITHMS AND SOFTWARE II</b>	<b>385</b>
	<i>Co-Chairs C. Rizos, University of New South Wales, AUS C. Varner, The Mitre Corporation, McLean, VA, USA</i>	
1.	<a href="#"><u>Precise Relative Positioning Using Absolute GPS</u></a> - M. Olynik, M.E. Cannon, G. Lachapelle, Geomatics Engineering, University of Calgary, W. Gelatka and Jon Davis, Naval Air Warfare Center, Patuxent River, MD.	385
2.	<a href="#"><u>Pseudorange Multipath Mitigation by Means of Multipath Monitoring and De-Weighting</u></a> - S.B. Bisnath and R.B. Langley, Geodetic Research Laboratory, Department of Geodesy and Geomatics Engineering, University of New Brunswick, Fredericton, New Brunswick.	392
3.	<a href="#"><u>Bridging DGPS Outages in Kinematic Applications Using a Simple Algorithm for INS Bias Modeling</u></a> - S.M. Nassar and K.P. Schwarz, Geomatics Engineering, University of Calgary, Calgary, AB.	401
4.	<a href="#"><u>On the Error Sensitivity of the GPS Ambiguity Success Rate</u></a> - P. Joosten, P.J.G. Teunissen, Mathematical Geodesy and Positioning, Delft University of Technology, JA, Delft, The Netherlands.	409
5.	<a href="#"><u>New Quaternion-based Least-squares Method for Attitude Determination with Vector Observations</u></a> - J.H. Won, S.J. Ko, J.S. Lee, Electronics Engineering, Ajou University, Suwon, Korea.	415
6.	<a href="#"><u>Track Model Constraint Enhancement For Novatel's OEM4</u></a> – T. Ford, NovAtel Inc, K. Milnes, Sport Vision Inc.	421
7.	<a href="#"><u>Boresight Calibration of Integrated Inertial/Camera Systems</u></a> - M. Mostafa, Applanix Corporation, ON.	440
8.	<a href="#"><u>Using a Virtual Reference Station to Compensate for Coordinate Transformations in GPS Surveying</u></a> - B.R. Townsend, Robertson Enterprises Ltd., and A.B.O. Jensen, National Survey and Cadastre, Denmark.	446
9.	<a href="#"><u>Mitigation of Ionospheric Errors by Penalised Least Squares Technique for High Precision Medium Distance GPS Positioning</u></a> - M. Jia, M. Stewart	

and M. Tsakiri, Spatial Sciences, Curtin University of Technology, Perth, Australia. 455

## **Session 8 - GNSS AND AUGMENTATION 461**

*Co-Chairs: B. Eissfeller, University FAF, München, GER  
A. Dodson, Univ. of Nottingham, UK*

1. [Research Toward Wireless Internet-Based DGPS](#) - Z. Liu and Y. Gao, Geomatics Engineering, University of Calgary, Calgary, AB. 461
2. [Long-Range RTK Positioning Using Virtual Reference Stations](#) - U. Vollath, A. Deking, H. Landau, C. Pagels, Trimble Terrasat GmbH, Germany. 470
3. [Real-Time Carrier Phase Ambiguity Resolution for GPS/GLONASS Reference Station Networks](#) - L. Dai, J. Wang, C. Rizos and S. Han, School of Geomatic Engineering, University of New South Wales, Sydney, Australia. 475
4. [Pseudolite Applications in Positioning and Navigation: Modelling and Geometric Analysis](#) - L. Dai, J. Wang, T. Tsujii and C. Rizos, School of Geomatic Engineering, University of New South Wales, Sydney, Australia. 482
5. [Testing a Real Time Kinematic Service System Using FM DARC for the Nationwide DGPS Network in Korea](#) - J.U. Park, J.H. Joh, H.C. Lim, and P.H. Park, Korea Astronomy Observatory, Taejon, South Korea, S.W. Lee, and W.S. Jeon, Munhwa Broadcasting Co. Ltd., Seoul, South Korea, S.C. Bang, Bway Co. Ltd., Seoul, South Korea. 490
6. [Tropospheric Delay Prediction in Wide Area Augmentation Systems Using Numerical Weather Fields](#) - T. Schueler, G.W. Hein, B. Eissfeller, Institute of Geodesy and Navigation, University FAF Munich, Germany. 498
7. [Towards Global Integrity](#) - W. Werner, IfEN GmbH, Germany. 510
8. [GPS Carrier-Phase Point Positioning with Precise Orbit Products](#) - P. Héroux, J. Kouba, P. Collins, F. Lahaye, Geodetic Survey Division, Natural Resources Canada. 518

## **Session 9 - WIRELESS LOCATION 529**

*Co-Chair: R. Klukas, Cell-Loc Inc., Calgary, CDN*

1. [Handset Architecture Synergies for Combined GNSS/Wireless Location](#) - G. Heinrichs, MAN Technologie AG – Karlsfeld, Germany, B. Eissfeller, University Federal Armed Forces – Munich, Germany 529
2. [AFLT Simulator for CDMA Communication Network](#) - H.S. Kim, J.H. Park, G.I. Jee, Electronics Engineering, Konkuk University, Seoul, Korea. 536

## **Session 10 - KINEMATIC GRAVIMETRY AND GRADIOMETRY**

**542**

*Co-Chairs* K.P. Schwarz, Univ. of Calgary, CDN  
J. Brozena, Naval Research Lab., Washington, D.C., USA,

1. [\*\*A Comparison of Inertial Platform, Damped 2-axis Platform and Strapdown Airborne Gravimetry\*\*](#) - A.M. Bruton, Geomatics Engineering, University of Calgary, Y. Hammada, S. Ferguson, Sander Geophysics Ltd., K.P. Schwarz, Geomatics Engineering, University of Calgary, M. Wei, Intermap Technologies Corporation, J. Halpenny, Geodetic Survey Division, Geomatics Canada. 542
2. [\*\*Applying Polyphase Filter in Airborne Strapdown Inertial Gravimetry\*\*](#) - M. Wei and J.K. Tennant, Intermap Technologies Corp., Calgary, AB. 551
3. [\*\*Operating Limits of a Two Axis Beam Type Airborne Gravity Meter\*\*](#) - J. Halpenny, Geodetic Survey Division, Geomatics Canada, Ottawa. 556
4. [\*\*Oceanographic Applications of Airborne Gravimetry and Sea-Surface Topography Measurement\*\*](#) - J.M. Brozena, V. A. Childers, Naval Research Laboratory, Washington DC., G. Jacobs, Naval Research Laboratory, Stennis Space Center, MS., J. Blaha, Naval Oceanographic Office, Stennis Space Center, MS., W. Smith, NOAA Lab. for Satellite Altimetry, Silver Spring MD. 564
5. [\*\*Airborne Gravimetry Over the East Antarctic Ice Sheet\*\*](#) - T.G. Richter, J.W. Holt, and D.D. Blankenship, University of Texas Institute for Geophysics, Austin TX. 576
6. [\*\*Airborne Gravity And Geoid Surveys in the Arctic and Baltic Seas\*\*](#) - R. Forsberg, A.V. Olesen, K. Keller & M. Møller, Geodynamics Dept., National Survey and Cadastre (KMS), Copenhagen, Denmark, A. Gidskehaug, Institute of Solid Earth Physics, University of Bergen, Norway, D. Solheim, Geodetic Division, Norwegian Mapping Authority, Hønefoss, Norway. 586
7. [\*\*The Canadian AGEM Project for Airborne Gravimetry\*\*](#) - K.P. Schwarz, A.M. Bruton, P. Novak, Geomatics Engineering, University of Calgary, Calgary, AB. 593

[NOVATEL INC. \(SPONSOR OF KIS01 BAGS\) TECHNICAL INFORMATION](#)
