

3.3 The *Authorized Hardware List* is a detailed list of authorized *Computing Hardware*. The list is maintained by the **Client Technology Standards Workgroup** of the **Information Technology Architecture and Standards Committee** under the authority of the **CIO**. This list can be found at <http://www.ucalgary.ca/it/standards>.

Standard

4

4.1 *U of C Computer Support Services* are available only for *Computing Hardware* in the *Authorized Hardware List*.

4.2 Unsupported equipment may not be connected to the UofC Managed Client Network Zone.

Exceptions

5

The CIO can approve exceptions to the above standard. Exception requests must be authorized by the requesting VP or Dean and shall include detailed descriptions of:

- a. Why the proposed solution is being requested.
- b. How the proposed solution varies from the standard.
- c. What are the implications for long term management of the variation.
