

Fiscal Year Ending March 31, 2023

Purpose:

This report outlines the goods and services that students receive for the mandatory non-instructional fees (MNIFs) that they are required to pay to complete an approved program or classroom instruction and that enhance the student experience.

The Tuition and Fees Regulation (TFR)² requires that institutions provide all necessary information to compare the revenue from mandatory non-instructional fees to the costs of the specific goods and services.

All MNIF reports for the University of Calgary use the same format and financial methodology including approaches to direct and indirect expenses.

Background:

Mandatory non-instructional fees are governed by the *Alberta Post Secondary Learning Act*¹, the *Alberta Tuition and Fees Regulation*² and the *Alberta Tuition Framework*³ as well as the terms of reference documents of the Board of Governors (BoG), Finance and Properties Committee (FPC), and Tuition and Fees Consultation Committee (TFCC).

Definitions:

Key definitions that have been used in preparation of this report can be found in Appendix A that follows this report.

- Goods and Services
- Direct/Indirect Expenses

You can find more detailed information about establishing tuition and fees on the <u>Tuition and Fees</u>
<u>Reporting</u> website.

Appendix A

Goods and Services:

Goods or services

- A6 Promised goods or services may include, but are not limited to:
 - goods produced by a public sector entity for sale (for example, municipal water provided for a fee);
 - goods purchased by a public sector entity for resale (for example, recycling bins);
 - use of tangible capital property for a specified period (for example, rental of space for skating at a
 community centre);
 - (d) services provided, including those that involve another party (for example, routes operated by a contracted service provider for a public transit commission for a fee);
 - (e) standing ready to provide goods or services (for example, paramedics on site at an athletic competition organized by a community group);
 - an asset constructed, manufactured or developed for a payor (for example, connecting a private dwelling to the municipal water system);
 - rights provided to use intangible assets owned or controlled by the Crown (for example, an agreement to
 use electromagnetic spectrum, licence providing rights for natural resources or licence for patented
 technology);
 - (h) options granted to purchase additional goods or services (when those options provide the payor with a concessionary right);
 - (i) an agreed-upon task (for example, day-care services provided for a fee); and
 - a decision provided and having the appropriate documentation ready (for example, issuing a driver's licence to a qualified driver).
