

It is very important that you carefully consider the total financing of your education, from your first session at the University of Calgary to completing your degree objective. If financial help will be needed beyond funds that you or your family are able to provide, you should make the necessary applications for financial assistance well in advance of enrollment. You should pay particular attention to early deadlines for applications for grants, awards and student loans. While the needs and resources of each student differ, the University can provide a general list of fees and expenses normally encountered.

This section contains awards for undergraduate faculties, awards for the Faculty of Environmental Design and awards for the Faculty of Graduate Studies.

Supplemental, deferred and special deferred examinations or term work may affect eligibility for certain awards.

If a student is granted an award, the University of Calgary reserves the right to release pertinent information to provincial funding bodies or the donor of the award.

The University assumes liability for the payment of scholarships, bursaries, prizes and other awards only to the extent that gifts from donors, or returns from particular investments for these purposes, will permit.
