

GRADUATE AWARDS

Awards And Financial Assistance For Graduate Students

The University of Calgary is very proud of its Graduate Student Awards program. In addition to recognizing academic achievement, scholarships are important in helping to bridge the gap between the rising cost of attending university and limited student income. Attracting top national and international students to the University of Calgary continues to be a very high priority.

We are extremely pleased that our donors share our commitment to graduate student awards, and we greatly appreciate the financial support offered by all of our valued donors.

Full-time students registered in a graduate degree program at the University of Calgary are eligible for awards and financial assistance.

Additional information is available from your department. Scholarship applications are on the web at http://www.grad.ucalgary.ca/fac/site_schol.htm.

Because this Awards List is published a considerable time before the opening of the session, the University reserves the right to make whatever changes circumstances may require, including cancellation or addition of particular awards.

I. University Assistantships

Please refer to the *Graduate Student Appointments Schedule and Funding Information* for more complete information about the appointments mentioned in this section. The *Schedule* is available at http://www.grad.ucalgary.ca/policy/policies_and_procedures.htm.

Each year teaching units have available varying numbers of graduate assistantships to be awarded on the basis of merit. Individuals interested in such appointments should contact the appropriate program administrator for information about eligibility, application deadlines and procedures. The stipends indicated are subject to change without notice. Appointments are available from most units in which graduate programs are offered.

Categories of appointment include Graduate Assistantships (Teaching or Non-Teaching), Graduate Assistantships (Trust), Graduate Teaching Fellowships and Sessional Lectureships.

Graduate Assistantships (GA)

- (a) A Graduate Assistantship (Teaching) is an appointment made to assist with the instructional responsibilities of departments. GA(T)s are appointed to provide teaching or instructional service, which might encompass lecturing assistance, laboratory supervision, office hours,

grading assignments, tutorial direction, assistance in preparation of demonstration and instructional aids, and other related academic duties.

- (b) A Graduate Assistantship (Non-Teaching) is an appointment made to assist departments and/or professors with non-teaching responsibilities. The duties of a GA(NT) may include, for example, collecting research data, interviewing research subjects, bibliographic work or general research services.

Remuneration paid to Graduate Assistants must comply with the Graduate Student Appointments Schedule or the regulations of the agency providing the funds. At the time of publishing, the stipend range is \$6,221 - \$6,799 per term (four months).

Graduate Assistantships (Trust)

A graduate student is appointed to a Graduate Assistantships (Trust) to build academic experience by assisting with a research project, with duties similar to those described above for a Graduate Assistantship (Non-Teaching). GA (Trust) appointments are funded from the research support accounts held in trust for University staff who select and recommend graduate students for such appointments. The stipends vary. This type of support is arranged directly between graduate students and their prospective supervisors.

Graduate Teaching Fellowships (GTF)

A Graduate Teaching Fellowship is an award of merit to a senior graduate student. The GTF is Instructor of Record for a course. No GTF may be Instructor of Record in more than one half-course or one full course at any one time. The stipend for a GTF will be no less than \$4,000 per four-month term.

Students awarded a Graduate Assistantship (Teaching, Research, or Trust) or a Graduate Teaching Fellowship who are not Canadian citizens or permanent residents must submit a copy of a valid study permit giving permission to work before beginning the Assistantship or GTF.

Sessional Lectureship

A graduate student may be appointed Sessional Instructor to teach a course as Instructor of Record.

II. Graduate Research Scholarships (GRS)

Graduate Research Scholarships are for research directly related to the student's research. No teaching or service duties are required of graduate students who hold GRS. To be eligible for a Graduate Research Scholarship, students must be registered full-time in the Faculty of Graduate Studies in

a thesis program at the University of Calgary. Course-based students, qualifying students and Special Case Admission students are ineligible.

The stipend is \$4,000 per four-month session (September to December, January to April, May to August), funded by the Faculty of Graduate Studies but awarded by the departments. Full or half-units may be awarded. Students should check with the program for application procedures. The number of units of GRS a student can hold during a particular program is limited as follows:

Master's - 4 units

Doctoral - 6 units

Students registered in the fourth year of a Master's program or the sixth year of a doctoral program are normally ineligible to hold a GRS.

III. Dean's Research Excellence (DREA) Awards

The Faculty of Graduate Studies offers Dean's Research Excellence Awards (DREAs) to Master's or doctoral students holding major national scholarships won on a competitive basis (e.g., Natural Sciences and Engineering Research Council, Social Sciences and Humanities Research Council, or Canadian Institutes of Health Research). Students must be assessed full program fees and be registered full-time in the Faculty of Graduate Studies in a thesis program at the University of Calgary to be eligible for a Dean's Research Excellence Award. Applications must be submitted no later than the beginning of the month in which the award is taken up. Students holding NSERC or SSHRC awards will receive the DREA upon presentation of their Payment Activation Form (PAF) to the Faculty of Graduate Studies Graduate Scholarship Office. Students holding CIHR or other non-TriCouncil national awards must apply for the Dean's Research Excellence Award by sending a letter with proof of the award and evidence of its competitive nature to the Graduate Scholarship Office, Faculty of Graduate Studies, Room 720, Earth Sciences Building, University of Calgary, 2500 University Drive NW, Calgary, Alberta T2N 1N4.

IV. Faculty of Graduate Studies (FGS) Awards

To be eligible for a Faculty of Graduate Studies Award, students must be registered full-time in the Faculty of Graduate Studies in a thesis program at the University of Calgary. The departments allocate these awards, and students should check with the program administrator for application procedures.

GRADUATE AWARDS

V. Graduate Students' Association Bursaries

The Graduate Students' Association makes available bursaries of up to \$1,500 per year to students who at the time of tenure will be registered in a graduate program at the University of Calgary and can demonstrate financial need. Application forms are available from the Graduate Students' Association, 350 MacEwan Student Centre, telephone (403) 220-5997, and application deadlines are October 1 and February 1.

VI. Government Financial Assistance

The provincial and federal governments make assistance available to students in the form of loans. In order to be eligible for assistance, a student must be a Canadian citizen or permanent resident of Canada and provide sufficient evidence that financial assistance is essential to enable the student to continue her/his education. The amount of assistance varies. Further details and application forms are available from Student Awards and Financial Aid, Room 124, Library Block, University of Calgary, 2500 University Drive N.W., Calgary, Alberta T2N 1N4.

VII. International Students

International students planning to do graduate work at the University of Calgary should be aware that a number of Canadian scholarship programs require Canadian citizenship or permanent residence status. However, the Government of Canada does support a number of programs designed to assist individuals who wish to study in Canada on a study permit. These programs are usually organized through agencies of the individual's own government, and prospective students are encouraged to explore these possibilities. International students may apply for Graduate Research Scholarships, Graduate Assistantships, Graduate Teaching Fellowships and FGS Awards.

VIII. Awards Offered by Government, Industry and Others

Many foundations, companies, professional organizations and other agencies offer financial support to graduate students. A number of international, national and provincial organizations award scholarships and fellowships that are tenable at this and at other universities. Details about many of these awards are available from the Graduate Scholarship Office, Faculty of Graduate Studies, Room 720, Earth Sciences Building, University of Calgary, and in the *Faculty of Graduate Studies Award Applicant's Handbook*. There are many websites offering a wide range of scholarship

information. Some of the popular ones include:

IX. University Research Grants Committee Thesis Research Grants

The University Research Grants Committee recognizes that there are instances where the ordinary resources for thesis research available through a program or faculty may not be adequate to attend to certain special needs of a particular thesis research project or where unpredictable circumstances have made it impossible to provide funds from current budgets.

Thesis Research Grants are made to assist graduate students with the acquisition of special equipment, services or materials or for fieldwork essential to the conduct of their thesis projects. These awards are competitive. Information is available through the Office of Research Services, Room 602, Earth Sciences Building, University of Calgary, Calgary, Alberta T2N 1N4. Telephone (403) 220-6354.

Field of Study: Any graduate program leading to a research degree (MA, MSc, PhD or EdD) or to a professional degree, provided that the requirements for the degree involve completion and presentation of a research project, independent of individual course requirements.

Value: Maximum of \$1,000 to a student registered in a Master's degree program, and \$1,500 to a student registered in a doctoral program.

Duration: Twelve months, non-renewable.

Eligibility: The recipient must be registered full-time and be actively engaged in thesis research. Applicants must be able to present a fully developed research proposal, approved by their supervisory committee and

evidence that the research work is in progress at the time of application. For further details, see the Thesis Research Grants publication of the University Grants Committee.

Apply using forms available on the web at http://www.ucalgary.ca/UofC/research/html/res_fund/int_grants.html; from the Research Services Office, Room 602, Earth Sciences Building, University of Calgary, Calgary, Alberta T2N 1N4; or, from the program in which the student is registered.

Deadlines: Applications are accepted twice a year - 1 April and 1 October.

X. Conference Travel Grant (Graduate Students)

Graduate Student Travel Grants are made to assist graduate students in presenting the results of their thesis research at significant scientific or scholarly meetings, and equally, to provide students with an opportunity to gain experience in conference presentation and to meet colleagues in universities and industries who will be of importance to their future career. These awards are competitive. Information is available through the Office of Research Services, Room 602, Earth Sciences Building, University of Calgary, Calgary, Alberta T2N 1N4. Telephone (403) 220-6354.

Awards are made as a contribution toward transportation costs, registration fees, if any, and living expenses. A brief report on the conference and its value to student attendees is expected.

Value of Assistance: A maximum of \$700.

Assistance: Awards will be paid to the individual.

Eligibility: Applicants must, at the time the conference is held, be registered as full-time graduate students in a thesis program leading to a Master's or doctoral degree from the University of Calgary. Preference will be given to students in their final or graduating year. An individual can receive only one award at the Master's level and only one at the doctoral level while at the University of Calgary. Applicants must be personally presenting their own thesis work or personally presenting a co-authored contribution that is based on their thesis work. The contribution may be in the form of a paper or a poster session.

Where Tenable: Eligible conferences are those sponsored by an established academic or professional organization in the applicant's discipline or profession. Their venue may be in Canada or abroad. The conference must be an open meeting to qualified members of the organization, discipline or the profession. The conference must also attract participation from a wide range of organizations and institutions and not be limited, in practice, to the members of a particular institution.

GRADUATE AWARDS

Apply using forms available on the web at http://www.ucalgary.ca/UofC/research/html/res_fund/int_grants.html; from the University Research Services Office, Room 602, Earth Sciences Building, University of Calgary, Calgary, Alberta T2N 1N4; or, from the program in which the student is registered.

Deadlines: Applications are accepted twice a year - 1 April and 1 October.

XI. Awards in the Faculty of Graduate Studies

The Faculty of Graduate Studies Scholarship Committee awards the scholarships and fellowships listed here and unless otherwise stated in the terms of reference, application for these awards is made on a single form. Copies of the application form are available from the graduate programs and from the web at http://www.grad.ucalgary.ca/fac/site_schol.htm.

Scholarships and fellowships are awarded on the basis of academic standing and demonstrated potential for advanced study and research. Normally, only Master's students in the first two years of program and doctoral students in the first four years of program are eligible to hold scholarships. If, in the opinion of the Graduate Scholarship Committee, a suitable candidate cannot be found, it reserves the right not to award any one or any number of scholarship(s) in any year. Unless otherwise stated, awards are for one year only. The value and terms of the awards are subject to change without notice. Written requests, endorsed by the supervisor and graduate co-ordinator, for off-campus tenure of awards should be submitted to the Dean of Graduate Studies.

Notification of award is sent to successful candidates as soon as possible after the adjudication. All award winners are asked to accept or reject the offer in writing as soon as possible and no later than one month from the date on the letter of offer.

Should it become known that a student is unqualified for any reason, the University reserves the right to terminate the award(s) and **funds already paid out must be returned.**

The following payment schedule applies to all awards in the Faculty of Graduate Studies, unless the terms of reference of the award specifies otherwise.

If a student has a successful final oral examination during the tenure of a scholarship, the award will be terminated at the end of the month following the month in which the final oral examination was held, or at the date of the termination of the award, whichever comes first.

University of Calgary scholarship holders, i.e., students who have been awarded a scholarship by the Faculty of Graduate Studies Scholarship Committee (this does not include holders of either a GA or GRS), normally may not hold more than one major

Amount of Award	Payment
Up to \$1,250	One lump sum payment
\$1,251 to \$5,000	Paid in equal monthly installments over a four month term
\$5,001 to \$9,000	Paid in equal monthly installments over eight months
Awards over \$9,000	Paid in equal monthly installments over twelve months

award at the same time. A major award is normally considered to be \$14,000 over twelve months or \$4,600 over four months. Students who have been offered both a major award by the Graduate Scholarship Committee and a major external award must normally forfeit one of the awards. In such a case, a student may include the offer of the forfeited award on a curriculum vitae.

Any scholarship recipient can normally be awarded Graduate Assistantships as long as the terms of reference of the scholarship do not prohibit such combinations. Students are advised to read the terms of scholarships carefully in order to determine any restrictions. In addition to Assistantships, major scholarship winners may also accept minor awards provided prior approval is obtained from the Graduate Scholarship Committee.

Before accepting other forms of awards or remuneration, especially those involving service, students must check with the Chair, Faculty of Graduate Studies Scholarship Committee, to ensure that acceptance of the award does not affect the holder's full-time registration status.

Students holding multiple year funding **must** submit a copy of their annual report to the Faculty of Graduate Studies Scholarship Office not later than the end of the eleventh month of the registration year.

Method of Application – Open Competition

Unless otherwise indicated, applications and all supporting documentation must be sent to the program in which the student will be registered, using a Faculty of Graduate Studies *Graduate Scholarship Application* form (http://www.grad.ucalgary.ca/fac/site_schol.htm). Students applying for admission to more than one graduate program must submit a scholarship application to each of the programs to which they are applying. Check the Program Details section of the Calendar for specific application deadlines (http://www.ucalgary.ca/pubs/calendar/current/What/Fac/GS/GSSub_F.htm).

Method of Application – Program-Specific Recommended Scholarships

Many of the scholarships listed below are made by recommendation to the Faculty of Graduate Studies Scholarship Committee. In these cases, either an application is made to the program listed or an application is not required. Check the "Conditions, Application, Adjudication, etc." column for the scholarship or with the appropriate program.

Please note that full Terms of Reference for each scholarship listed below are available from the Graduate Scholarship Office, Faculty of Graduate Studies, Earth Sciences Building, Room 720.

GRADUATE AWARDS

Name of Award <i>Donor/Source of Funds</i>	Fields of Study	Number & Value (unless otherwise stated, offered annually)	Eligibility: Unless otherwise stated, open to students who are, or will be, registered full-time in a thesis-based graduate program in the Faculty of Graduate Studies at the University of Calgary	Conditions, Application, Adjudication, etc: (unless otherwise stated, applications must be made to the teaching unit in which a student is or will be registered, using a Faculty of Graduate Studies <i>Scholarship Application</i> form (http://www.grad.ucalgary.ca/fac/forms.htm).
