* Combined Degree with the Haskayne School of Business
 ** Combined Degree with the Faculty of Education
 *** Combined Degree with the Faculty of Nursing

GRADUATE	Kinesiology					
	MKin					
MSc						
PhD						

Undergraduate

The Faculty of Kinesiology offers four-year professional and disciplinary programs leading to degrees in the following areas:

1. Bachelor of Kinesiology (General)
2. Bachelor of Kinesiology (Athletic Therapy)
3. Bachelor of Kinesiology (Biomechanics)
4. Bachelor of Kinesiology (Exercise and Health Physiology)
5. Bachelor of Kinesiology (Mind Sciences in Kinesiology)
6. Bachelor of Kinesiology (Pedagogy)
7. Bachelor of Science (Biomechanics)
8. Bachelor of Science (Exercise and Health Physiology)
9. Bachelor of Science (Kinesiology)
10. Bachelor of Science (Mind Sciences in Kinesiology)

Students normally enter the Bachelor of Science programs in their fourth year. Consult "Program Details" below for specific information.

Honours programs are offered in all majors. Students who are preparing to teach in either the elementary or secondary school system

should enroll in the Bachelor of Kinesiology (Pedagogy) degree program.

The Faculty of Kinesiology offers a five-year combined Bachelor of Commerce/Bachelor of Kinesiology (General) with the Haskayne School of Business, a five-year combined Bachelor of Kinesiology (Pedagogy)/Bachelor of Education (Master of Teaching Program) in Physical Education with the Faculty of Education, and a five-year combined Bachelor of Kinesiology (General)/Bachelor of Nursing with the Faculty of Nursing.

The Faculty of Kinesiology participates in a collaborative program with the Faculty of Fine Arts to offer a four-year BA Dance degree. See the Collaborative Programs section of this Calendar for details.

The Faculty of Kinesiology collaborates with the Faculty of Education to offer a Minor in "Adapted and Therapeutic Activity" for students in Kinesiology. Detailed requirements are listed in the Faculty of Education section of this Calendar.

Graduate

The Faculty of Kinesiology offers graduate programs leading to the thesis-based MSc, the course-based MKin degree, and the Doctor of Philosophy (PhD) degree. The

MSc degree is a full-time degree that may be taken in a variety of specializations according to the list of faculty research interests. The two Master of Kinesiology programs are: (a) Art and Science of Coaching; and (b) Exercise and Functional Fitness. The Doctor of Philosophy (PhD) degree is offered in the areas of Exercise and Health Physiology, Biomechanics, and Biomedical Engineering. The opportunity exists to pursue a Doctor of Philosophy in other areas on a Special Case basis. Graduate programs are administered by the Faculty of Graduate Studies, and details are given in its Calendar.

Faculty Information

Contact Information

Location: Kinesiology Complex: KNB 142/143
Student Information: (403) 220-7018 or 220-6762
Faculty number: (403) 220-5603
E-mail address: knesinfo@ucalgary.ca
Web page URL: <http://www.kin.ucalgary.ca/>

Introduction

The discipline of Kinesiology involves the study of human movement from many theoretical and applied perspectives, including structural, functional, mechanical, historical, psychological, and sociological. Approximately 500 undergraduate and 70 graduate students are enrolled annually in the Faculty of Kinesiology.

Pattern

The General Program (BKin or BSc) offers flexibility to choose courses from Kinesiology and other Faculties to tailor programs to individual needs and interests. It is the most flexible of all Kinesiology majors. A combined Bachelor of Commerce/Bachelor of Kinesiology degree program is offered with the Haskayne School of Business. A combined Bachelor of Kinesiology/Bachelor of Nursing degree program is offered with the Faculty of Nursing.

The Athletic Therapy program (BKin) is a joint offering with Mount Royal College, which provides professional training in Athletic Therapy, including a high-quality experiential component during a full year on the Mount Royal College campus. Ten students per year will be admitted to the major after two years of preparatory course work that includes specified course requirements.

Biomechanics (BKin or BSc) focuses on the mechanics of human movement with an emphasis on biomedical and sports applica-

tions, through course work in Kinesiology, Mathematics, and Engineering.

Exercise and Health Physiology (BKin or BSc) builds upon fundamental knowledge in human movement and functioning, focusing on the effects of lifestyle, exercise, and diet on the human body.

Mind Sciences in Kinesiology (BKin or BSc) provides a comprehensive education in the areas of behavioural neurosciences, cognition and neuro-motor control, and personality and social psychology.

Pedagogy (BKin) combines the study of Elementary and Secondary School Physical Education. Teaching certification must be obtained from the Faculty of Education either after completion of the BKin (Pedagogy) degree, or through the combined degree with Pedagogy and Education.

The BA Dance degree is offered as a four-year collaborative program with the Faculty of Fine Arts.

Objectives

The curriculum in the Faculty of Kinesiology introduces students to new and demanding thought processes and learning experiences that promote a lifelong desire for learning and a healthy lifestyle. It provides an opportunity for students to acquire advanced levels of knowledge in specific aspects related to health, movement, exercise, and sport. Laboratory, professional, and experiential courses are designed to facilitate the transition to workplace and/or graduate education and to assimilate knowledge outside of the field of Kinesiology.

The curriculum will provide students with the ability to synthesize knowledge and experience related specifically to applications of health, movement, exercise, and sport; understand the effects of movement, exercise, and sport on fitness and health; communicate information effectively; and demonstrate critical and creative thinking skills.

Career Opportunities

Graduates of Kinesiology are qualified for positions of leadership in community or corporate wellness programs; sport management and promotion; fitness promotion, assessment, and prescription; coaching and training amateur athletes; therapeutic and rehabilitative programs; ergonomic assessments; exercise therapy; and other professional opportunities through sport and physical activity. Those students intending to teach in the school systems must enroll in the Faculty of Education after completion of Kinesiology degree requirements.

Student Affairs

- Academic advisors in the Student Programs Office are available for program consultation during regular office hours. Students are encouraged to become acquainted with the Student Programs Office and its advising resources to discuss any aspect of academic programs.
- Kinesiology Student Society

Resources

The Faculty services the Athletic and Campus Recreation programs of the University. The physical complex provides a world-class environment for study and research. Students have use of the Olympic-sized pool and diving tower, the Jack Simpson triple gymnasium, a 400 m speed skating surface, ice hockey and figure skating surfaces, a specialized gymnastics gym, fitness centre, a unique climbing room, squash and racquetball courts, dance studios, and many other teaching and recreational facilities.

Faculty Regulations

Students in the Faculty of Kinesiology are governed by the academic regulations contained in this section and also in the Academic Regulations section of the Calendar. Certain courses are subject to individual prerequisites.

Students are advised to read and consider carefully all regulations and in cases of doubt as to the precise meaning of any statement or regulation, to consult the office of the Associate Dean (Academic), Faculty of Kinesiology.

Admissions

New applicants should refer to "Admission Requirements" in the Academic Regulations section of this Calendar for regulations regarding University admission requirements. Students must meet minimum admission requirements for either Standard Admission or Alternate Admission as set out in the Academic Regulations section of this Calendar, which outlines the specific matriculation subject requirements for each major.

Deadlines

Application and documentation deadlines for admission to the Faculty of Kinesiology:

Fall Session

- May 1 for applications
- June 30 for documents from transfer students
- August 1 for documents from high school students

Limited Enrollment

Enrollment in the Faculty of Kinesiology is limited. Applicants will be accepted on the basis of academic standing in high school and/or previous successful completion of academic course work at a post-secondary institution.

Adult Student Admission

Students 21 years of age or older by the commencement of the session to which they are seeking admission who are unable to present complete matriculation may apply for admission under special conditions. Such applicants must present evidence of having successfully completed English 30, Biology 30, Chemistry 30, and one of Pure Mathematics 30, Mathematics 30, or Mathematics 31, or equivalents.

Transfer to BEd (Master of Teaching Program)

Students who plan to apply for admission to the BEd (Master of Teaching Program) Kindergarten/Elementary and Secondary Routes should note the regulations listed in the Faculty of Education section of this Calendar. Students who plan to apply for admission to either the Kindergarten/Elementary or Secondary Routes but who are not enrolled in the BKin (Pedagogy) major should consult the Kinesiology Pedagogy Coordinator early in their program.

Registration

Effective Writing Requirement

All students must satisfy the Effective Writing Requirement as outlined in the Academic Regulations section of this Calendar.

Course Load

The equivalent of five half-courses per academic session represents a normal course load in all Faculty of Kinesiology programs. It should be stressed that extra courses represent substantial burdens and may damage overall performance. Opportunities for accelerated progress exist through courses offered in Spring and Summer Sessions.

Transfer of Credit from Other Institutions

No more than 10 full-course equivalents taken at other institutions and acceptable for transfer of credit may be counted towards the degree. Students must have obtained a grade of at least "D" or its equivalent in courses proposed for transfer of credit. Grades obtained in transfer courses are not used in the computation of grade point averages for graduation purposes.

At least half of the required Kinesiology courses in any degree program must be completed at the University of Calgary. The Faculty reserves the right to determine any student's sequence of courses; credit for a course will not be awarded unless the prerequisite for that course (as listed in the Calendar) has been completed with a minimum grade of "C-."

Students may be authorized to take some of their course work at another university if their registration as a visiting student is acceptable to that university. Requests for such authorization should be made through the Student Programs Office.

It is the responsibility of the student to provide full details of the courses proposed for transfer at the time of application. It is also the responsibility of the student to ensure that upon completion of the courses an official transcript is forwarded to the Registrar of this University in order that the appropriate credit may be officially recorded. Students must obtain a grade of "D" or better for transfer of credit.

Accuracy of Registration

All students are responsible for the completeness and accuracy of their registration and for arranging their course selections to meet all program requirements as detailed in this Calendar.

Duration of the Degree

All courses counting towards the degree must be completed within 10 consecutive calendar years from the time of first registration in the Faculty.

Courses Bearing a Prerequisite

A student must obtain a grade of "C-" or better in a prerequisite course to be eligible for the subsequent course. Students who do not have the specified prerequisite course on their academic record but feel that they have completed equivalent course work should contact the Student Programs Office.

Withdrawal from Courses

A student may withdraw from any course via the Web or Telephone Registration Systems. In any full course or half course the request must be submitted by the deadline as specified in the Academic Schedule. Before withdrawing from any course, a student is strongly recommended to seek advice from the instructor or the Student Programs Office.

Students wishing to withdraw completely from the University should refer to the Academic Regulations section of this Calendar.

Students will not be permitted to withdraw more than once from a particular course. Students will be required to withdraw from the Faculty if they have accumulated a total of more than five full-course equivalent withdrawals while in attendance at the University of Calgary.

Repetition of Courses

Students may repeat a course previously failed or one in which a higher grade is sought. However, a student will usually be permitted to repeat a particular course only once. Failure to achieve a minimum grade of "C-" in a required prerequisite course after two attempts will result in immediate required withdrawal from the Faculty, subject to the right of written appeal to the Kinesiology Appeals Committee.

Course Work

Activity Courses

Activity courses are listed under the headings "Dance Education Activity/Theory (DEAT)," "Outdoor Pursuits Activity/Theory (OPAT)," and "Physical Education Activity/Theory (PEAT)."

200-level courses are introductory and deal primarily with the acquisition and improvement of basic skills and knowledge in the activity.

300-level courses are advanced and deal primarily with the continued acquisition and improvement of intermediate and advanced skills as well as skill analysis, game strategy and teaching progressions.

Students must either pass the prerequisite

200-level Activity course, or acquire the consent of the Faculty before registering in 300-level Activity courses.

A student receiving credit for a 300-level Activity course may not subsequently receive credit for a 200-level course in the same activity.

A maximum of three full-course equivalents of Activity may be used towards the Bachelor of Kinesiology or the Bachelor of Science degree.

Credit in Courses by "Special Assessment"

Students are referred to the Academic Regulations section of this Calendar for University regulations on special assessment. Students may not count more than two full-course equivalents towards their degree in courses taken outside the Faculty by special assessment.

Student Standing

Academic Standing

The academic performance of Kinesiology students who have completed at least six half-course equivalents in the preceding Fall and Winter Sessions will be reviewed following each Winter Session. Students who have completed fewer than six half-course equivalents since their previous review will be evaluated at a subsequent annual review when they have completed a total of six or more half-course equivalents. All courses taken since the previous review of a student will be included.

A full-time student attaining a GPA of less than 2.00 in any academic year will be required to withdraw from the Faculty subject to the right of written appeal to the Kinesiology Appeals Committee. Such appeals must be received no later than June 30 of the academic year.

Failure to achieve a minimum grade of "C-" in a required prerequisite course after two attempts will also result in immediate required withdrawal from the Faculty.

Probation and Readmission

1. Probationary status is not available in Kinesiology, unless students are successful in appealing their "required to withdraw" status.
2. Probationary status carries the stipulation that a student must achieve a GPA of 2.00 or higher in each session until probation is cleared. Failure to maintain a GPA of 2.00 in any session, regardless of course load, will result in required withdrawal. Probationary status will be cleared when a student has completed the equivalent of five half courses with an overall GPA of 2.00 or higher.
3. Any student required to withdraw from the Faculty for unsatisfactory academic performance may be considered for readmission after 12 or more months have elapsed from the date of withdrawal. Such students will be placed on probationary status upon readmission. Re-applicants must satisfy the governing admission requirements (including grade point standards) for the year in which

they re-apply. Such students should consult with advisors in the Student Programs Office for further information.

4. A student required to withdraw from an Honours program under conditions of unsatisfactory academic performance is normally ineligible for readmission to an Honours program. However, the student may be admitted to a regular BKin or BSc program.

Dean's List

The Dean's List recognizes the outstanding academic achievement of students in the Faculty of Kinesiology. To be included, a student must achieve a GPA of at least 3.50 over all courses taken in the preceding Fall and Winter Sessions at the University of Calgary, with a minimum of four half-course equivalents completed in each session.

Graduation

Degree with Distinction

In a non-Honours program a GPA of 3.60 or better over the last 15 full-course equivalents will result in the degree being awarded with distinction.

A student who has taken part of his/her work at another university or who has transferred into the Faculty may be granted a degree with distinction at the discretion of the Faculty.

Degree with First Class Honours

In an Honours program a GPA of 3.60 or better over the last 15 full-course equivalents will result in the degree being awarded with First Class Honours.

A student who has taken part of his/her work at another university or who has transferred into the Faculty may be granted a degree with First Class Honours at the discretion of the Faculty.

Minor Field Programs

Students may formally declare a Minor Field and have this officially recorded on their transcript of record provided they satisfy the requirements for the relevant Minor Field program. This declaration must be made no later than the time of their last registration.

Minor Fields may be taken from the Faculties of Communication and Culture, Continuing Education, Education, Fine Arts, Humanities, Science, Social Sciences, Social Work, and the Haskayne School of Business. Students must satisfy the Minor Field requirements of the relevant Faculty.

Appeals Process

There are no Faculty-specific regulations governing appeals. Please refer to the Reappraisals and Appeals section of this Calendar.

Fees and Expenses

Students will be expected to pay supplementary fees in some courses, as specified in the Master Timetable.

Program Details

Bachelor of Kinesiology or Bachelor of Science Degree Programs

Introduction

BKin Programs

General
Athletic Therapy
Biomechanics
Exercise and Health Physiology
Mind Sciences in Kinesiology
Pedagogy

BSc Programs

Biomechanics
Exercise and Health Physiology
Kinesiology (General)
Mind Sciences in Kinesiology

Admission

See "Faculty Regulations – Admissions" above for application deadlines and other admission information.

Requirements

Bachelor of Kinesiology and Bachelor of Science Programs

1. Attainment of at least a 2.00 grade point average over the entire program, as outlined below.
2. Attainment of at least a 2.00 grade point average in all Faculty of Kinesiology courses.
3. No more than the equivalent of two full course "D" or "D+" grades in core course requirements.
4. No more than the equivalent of four full course "D" or "D+" grades throughout the entire program.
5. No "F" grades will be acceptable towards the BKin or BSc degree. A course normally may be repeated only once.

Kinesiology Core Courses

Within the 20 full-course Bachelor of Kinesiology or Bachelor of Science degree, all students must complete the following core courses (7.5 full-course equivalents).

1. Kinesiology 201
Kinesiology 203
 2. Kinesiology 211
Kinesiology 213
 3. Kinesiology 243
Kinesiology 245
 4. Kinesiology 251
Kinesiology 253
 5. Kinesiology 261
Kinesiology 263
 6. Biology 231
Kinesiology 355
 7. Zoology 361
Zoology 363
- 7.5 Kinesiology 473

Students are expected to register for a selected number of 200-level requirements

(chosen from Biology 231, Kinesiology 201, 203, 211, 213, 243, 245, 251, 253, 261, or 263) in Year 1, as well as some of the 200-level requirements for their chosen major. Since this entails more than five full-course equivalents, students are expected to complete these 200-level courses over several years and will be able to tailor their registrations to suit individual circumstances.

All students must complete at least five full-course equivalents from outside the Faculty of Kinesiology, including at least two full-course equivalents at the Senior level. In addition to the core, each major requires the specific courses outlined below.

Additional Requirements for Bachelor of Science Programs

To meet BSc degree requirements, at least 21 half-course science equivalents must be completed. These include all courses offered by the Faculty of Science, courses listed by the Faculty of Science as acceptable components in their BSc programs (see Faculty of Science – Faculty Regulations – Programs with a Major Field), Area III courses (see Faculty of Social Sciences – Area Table), and the following Kinesiology courses: 237, 251, 261, 263, 291, 293, 351, 353, 355, 363, 367, 371, 375, 381, 433, 451, 463, 465, 466, 469, 473, 475, 485, 490, 493, 495, and 503.46.

Honours Programs

See Honours section below for additional requirements for Honours programs.

Specific Program Requirements

Bachelor of Kinesiology (General) or Bachelor of Science (Kinesiology)

Admission

Students should refer to the Standard Admission requirements listed in the Academic Regulations section of this Calendar.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
- B. Four full-course equivalent Senior Options of which at least one and one-half full-course equivalents must be Faculty of Kinesiology options.
- C. Options (8.5 full-course equivalents)

Bachelor of Kinesiology (Athletic Therapy)

Admission

Applicants to the Athletic Therapy Major will enter the program at the third year level after successful completion of listed prerequisites, and selection using quantitative criteria. Admission to the major is limited to ten students each year; applications to the Major must be submitted by May 1. Applicants from outside Kinesiology must also meet the admission criteria for admission to the Faculty.

Since five full-course equivalents of this degree are Mount Royal College courses, a maximum of five additional full-course equivalents of transfer credit may be counted towards the degree (see "Transfer of Credit from Other Institutions").

The following requirements must be met and will be used as criteria in determining the most suitable candidates for admission and registration in the program:

1. Successful completion of eight or more full-course equivalents.
2. A minimum GPA of 3.00 over the most recent course work to a maximum of five full-course equivalents (University of Calgary courses and/or transferable courses taken at other institutions). All grades within a session will be included except where the number of courses taken within a session exceeds that required to fulfill (to a maximum of) five full-course equivalents, in which case the highest grades will be used.
3. Successful completion of the following required courses, or equivalents:
 - (a) Kinesiology 261 with a minimum grade of "C+"
 - (b) Zoology 361 and 363 with a minimum grade of "C-"
 - (c) Kinesiology 203
 - (d) Kinesiology 263
 - (e) Physical Education Activity/Theory 230
 - (f) Kinesiology 371

After meeting the above criteria, students will be ranked according to the grade achieved in Kinesiology 371.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
 - B. Athletic Therapy Major Requirements (7.125 full-course equivalents)
Kinesiology 237
Kinesiology 371
Athletic Therapy 471
Athletic Therapy 491
Physical Education Activity/Theory 230
- Mount Royal College Courses (5.0 full-course equivalents):**
- A. Physical Education 1301
Physical Education 1303
Physical Education 1305
Physical Education 1307
Physical Education 1311
Physical Education 1313
Physical Education 1315
Physical Education 1350
Physical Education 1352
Physical Education 1354
 - C. Options (5.375 full-course equivalents)

Registration

Emergency Medical Responder certification must be completed prior to the start of Mount Royal College course work. Students will be responsible for obtaining training and certification. Athletic Therapy 471 will normally be offered at the end of Summer Session and must be completed prior to commencement of the Mount Royal College course work. Athletic Therapy 491 is taken after Mount Royal College course work is successfully completed. The course begins prior to the start of Fall Session (usually the third week of August).

Bachelor of Kinesiology or Bachelor of Science (Biomechanics)

Admission

Students should refer to the Standard Admission requirements listed in the Academic Regulations section of this Calendar. Note that Mathematics 30 (or Pure Mathematics 30) with a grade of 70% or above and Mathematics 31 are required for admission. Physics 30 is recommended, but will not be counted in the calculation of the senior matriculation average. Applicants who do not present Physics 30 will be required to complete Physics 211 in the first year of their program.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
- B. Biomechanics Major Requirements (7.5 full-course equivalents)
 1. Applied Mathematics 217
Applied Mathematics 219
 2. Computer Science 203 or
Kinesiology 381
Engineering 201
 3. Engineering 205
Engineering 349
 4. Engineering 311
Engineering 317
 5. Mathematics 221
Statistics 333 (or one of Statistics
211, 213, or 357)
 6. Kinesiology 291
Kinesiology 293
Kinesiology 363
- 6.5 Kinesiology 463
- 7.5 Kinesiology 466
- C. Options (5.0 full-course equivalents)

Bachelor of Kinesiology or Bachelor of Science (Exercise and Health Physiology)

Admission

Students should refer to the Standard Admission requirements listed in the Academic Regulations section of this Calendar. Note that Mathematics 30 (or Pure Mathematics 30) with a grade of 70% or above is required for admission.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
- B. Exercise and Health Physiology Major Requirements (6.5 full-course equivalents)
 1. Chemistry 201
Chemistry 203
 2. Computer Science 203 or
Kinesiology 381
Mathematics 249 or 251
 3. Chemistry 341/Biochemistry 341 or
Chemistry 351/353
 4. Kinesiology 375
Statistics 333 (or one of Statistics
211, 213, or 357)
 5. One of Kinesiology 351, 363, 397,
399, 451, 463, or 469
One half-course English option

- 6.5 One and one-half full-course equivalents from Kinesiology 433, 465, 475, 477, 485, 493, 495, 503.46

- C. Options (6.0 full-course equivalents)

Bachelor of Kinesiology or Bachelor of Science (Mind Sciences in Kinesiology)

Admission

Students should refer to the Standard Admission requirements listed in the Academic Regulations section of this Calendar.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
- B. Mind Sciences Major Requirements (5.0 full-course equivalents)
 1. Psychology 205
Kinesiology 351
 2. Kinesiology 397
Kinesiology 399
 3. Psychology 312
 - 3.5 Kinesiology 353
 5. One and one-half full-course equivalents from Kinesiology 451, 485, Philosophy 313, Psychology 345, 353, 363, 369, 375, 425, 463, 465, 469, 485, 487
- C. Options (7.5 full-course equivalents)

Bachelor of Kinesiology (Pedagogy)

Admission

Applicants to the Pedagogy Major will enter this program at the second year level after successful completion of listed prerequisites. The number of spaces in second year is limited to 30 students. First year students will normally enter the General Major in the Faculty of Kinesiology in order to complete prerequisites. Applicants from outside Kinesiology must also meet the admission criteria for admission to the Faculty. The following requirements must be met and will be used as criteria in determining the most suitable candidates for admission and registration in the program.

1. Successful completion of four or more full-course equivalents with a GPA of at least 2.70 over the most recent course work to a maximum of five full-course equivalents (University of Calgary courses and/or transferable courses taken at other institutions). All grades within a session will be included except where the number of courses taken within a session exceeds that required to fulfill (to a maximum of) five full-course equivalents, in which case the highest grades will be used. In the event there are more qualified applicants than positions available, students will be admitted in descending GPA order.
2. Successful completion of Kinesiology 211 and 213 with a combined minimum GPA of 2.85.
3. Completion of Kinesiology 201 is highly recommended, and is required for

4. registration in Physical Education 321.
4. Prior to enrollment in any practicum courses, students must consult with the Pedagogy Coordinator in order to obtain required documentation to comply with the legal requirements for placement in schools.

Requirements

- A. Kinesiology Core (7.5 full-course equivalents)
- B. Pedagogy Major Requirements (5.5 full-course equivalents)
 1. Dance Education 225
Dance Education 325
 2. Kinesiology 367
Kinesiology 321
 3. Kinesiology 331
Kinesiology 391
 4. Kinesiology 491
Physical Education 321
 5. Physical Education 333
Physical Education 421
- 5.5 Physical Education 349
- C. Options (7.0 full-course equivalents)

Bachelor of Kinesiology Honours or Bachelor of Science Honours

Honours programs are offered in all majors.

Admission

Applicants to an Honours program must have completed at least 10 and no more than 15 full-course equivalents, and have achieved a cumulative GPA of at least 3.30 over these courses (with a minimum GPA of 3.30 in all Kinesiology courses). These grade point averages must be maintained in order to retain Honours standing.

Admission is contingent on the student having made suitable arrangements with an eligible thesis supervisor, as well as the availability of the resources (laboratory space, equipment, etc.) needed to complete the thesis. Students are strongly encouraged to consult with the Faculty's Student Programs Office prior to application.

Requirements

Enrollment in Kinesiology 490 (Interpretation of Research and Research Project) is added to the course requirements for each major in an Honours program. Enrollment in Kinesiology 490 is limited to 20 students.

To graduate, a student will be required to present a minimum GPA of 3.30 over the entire program and an average of at least 3.30 in all courses offered by the Faculty of Kinesiology.

1. To remain in an Honours program a student must maintain a GPA of at least 3.30 in each academic year. The following circumstances will normally result in a student being required to withdraw from the Honours program:
 - (a) Any "F" grades obtained in the final two years of the program.
 - (b) More than one "F" grade obtained in the first two years of the program.
 - (c) The accumulation of more than two "D" or "D+" grades throughout the program.

- Honours students must complete at least four full-course equivalents each year, September 1 to August 31.
- Honours students must submit a written report annually to the Associate Dean (Academic) by October 15.
- Honours students must complete a minimum of 10 full-course equivalents at the senior level.

Combined BComm/BKin (General) Program

Introduction

The Faculty of Kinesiology with the Haskayne School of Business offers a five-year combined Bachelor of Commerce/Bachelor of Kinesiology (General) degree program. The program requires careful selection of courses to complete all requirements of the two Faculties. Interested students are urged to contact the Student Programs Office of Kinesiology and the Assistant Dean (Undergraduate) of the Haskayne School of Business for advice in choosing their first-year courses.

Admission

Applicants to the BComm/BKin program must satisfy the admission requirements of both Faculties and will normally first enter the Faculty of Kinesiology. Admission to Kinesiology will be based on the admission requirements previously outlined. At the end of the second year of studies, students should apply to the Haskayne School of Business, to pursue the combined degree program. At the point of admission to the combined degree program, students will be administered by the Haskayne School of Business, which is a quota restricted faculty. Therefore, admission and program requirements for the BComm program also apply to students pursuing the combined degree program.

Requirements

Detailed program requirements are listed in the Haskayne School of Business section of this Calendar. Once accepted to the combined program, students may elect to remain in it or switch to either of the two separate degree programs, as long as the requirements of each Faculty continue to be met. Failure to meet requirements will result in a student being required to withdraw from the combined or separate programs. Students must satisfy the graduation requirements of both Faculties. Program details are listed in the Haskayne School of Business section of this Calendar.

Combined BKin (General)/BN Program

Introduction

The Faculty of Kinesiology with the Faculty of Nursing offers a five-year combined Bachelor of Kinesiology (General)/Bachelor of Nursing degree program. The program requires careful selection of courses to complete all requirements of the two Faculties. Interested students are urged to contact the Student Programs Office in Kinesiology and the Student Affairs Office in Nursing for advice in choosing their first-year courses.

Admission

Applicants to the combined BKin/BN program must satisfy the admission requirements of both Faculties and will normally first enter the Faculty of Kinesiology. Admission to Kinesiology will be based on the admission requirements previously outlined. After successful completion of at least eight half-course equivalents, including Biology 231 and Kinesiology 261, students should apply to the Faculty of Nursing to pursue the combined degree program. At the point of admission to the combined degree program, students will be administered by the Faculty of Nursing. Therefore, entrants into the combined program must meet the transfer admission criteria that apply to the Bachelor of Nursing Regular Track program.

Requirements

Once accepted to the combined program, students may elect to remain in it or switch to either of the two separate degree programs, as long as the requirements of each Faculty continue to be met. Failure to meet requirements will result in a student being required to withdraw from the combined or separate programs. Students must satisfy the graduation requirements of both Faculties. Program details are listed in the Faculty of Nursing section of this Calendar.

Combined BKin (Pedagogy)/BEd (Master of Teaching Program)

Introduction

The Faculty of Kinesiology with the Faculty of Education offers a five-year combined Bachelor of Kinesiology (Pedagogy)/Bachelor of Education (Master of Teaching Program) in Physical Education.

Admission

Applicants to the BKin/BEd (Master of Teaching Program) will be admitted after successful completion of listed prerequisites and selection using both qualitative and quantitative criteria. The number of spaces per year is limited to 30 students. The following requirements must be met and will be used as criteria in determining the most suitable candidates for admission and registration in the combined degree program.

- Only Pedagogy Majors in the Faculty of Kinesiology who have completed eight full-course equivalents including Kinesiology 391 (Practicum I) and 2.5 full-course equivalents specific to the Pedagogy Major are eligible to apply.
- Applicants must present the following:
 - A minimum GPA of 3.00 (see Item 3).
 - A Faculty of Education Statement in support of the application (a structured resume which includes the names of three referees).
 - Satisfactory completion of the Effective Writing Requirement.
- Admission to the combined degree program will be determined on the basis of the GPA calculated over the most recent course work to a maximum of five full-course equivalents (University of Calgary courses and/or transferable courses taken at other institutions). All grades within a session will be included except where the number of courses taken within a session exceeds that

required to fulfill (to a maximum of) five full-course equivalents, in which case the highest grades will be used.

- Admission to the combined degree program is on a competitive basis and meeting the minimum requirements does not guarantee admission.

Requirements

- Kinesiology Core (7.5 full-course equivalents)
- Pedagogy Major Requirements (5.0 full-course equivalents)
 - Dance Education 225
Dance Education 325
 - Kinesiology 321
Kinesiology 331
 - Kinesiology 367
Kinesiology 391
 - Physical Education 321
Physical Education 421
 - Physical Education 333
Physical Education 349
- Options (2.5 full-course equivalents) All of the above courses must be completed before students can register for the Bachelor of Education (Master of Teaching Program) courses.
- 10 full courses required by the Faculty of Education.

Regulations

Once accepted into the combined degree program, students have three years to commence the Faculty of Education component of the program. Students not registering for the Faculty of Education component within that time will be considered to have left the combined degree program and will be considered as Bachelor of Kinesiology students. Any students leaving the combined degree program will revert to enrollment in the Faculty of Kinesiology only and will be responsible for all requirements of that Faculty. Students must declare their intention to register in the Faculty of Education by the preceding March 15. Before entering the combined degree program, students are urged to obtain current CPR Certification (Basic Rescuer Certificate) and a current First Aid Certificate. Students are responsible for obtaining training and certification.
