

## UNDERGRADUATE AWARDS

### General Information and Policies

Application forms for bursaries and scholarships are available from the Student Awards and Financial Aid office by April each year. Application forms may also be printed off the Student Awards and Financial Aid office web site upon availability: [www.ucalgary.ca/awards/](http://www.ucalgary.ca/awards/) Application for awards must be made on the current application form. By completing one Undergraduate Awards application form, students will be considered for all awards listed in this section with the exception of those stating "No application required." Unless otherwise stated, completed applications for Undergraduate Awards must be post-marked or received by the Student Awards and Financial Aid office on or before **June 15**. Where no application is required, the award is made automatically without need for application.

Unless otherwise stated, the following policies are in effect with regard to University administered awards:

In order to qualify:

- Students must have completed their most recent consecutive Fall and Winter Sessions at the University of Calgary. An exception is made for students enrolled in Co-operative Education/Internship programs or Exchange programs involving only one semester of study. To qualify, courses in an exchange program must be eligible for transfer credit to be considered.
- Students entering or continuing in the Bachelor of Education (Master of Teaching Program) are eligible to apply for Undergraduate Awards.
- Students entering 5<sup>th</sup> year of a joint degree program are eligible to apply for Undergraduate Awards and will be considered for awards indicating students entering "Any" year or year 2, 3, or 4
- Students continuing in the Bachelor of Health Sciences program in the Faculty of Medicine are eligible to apply for Undergraduate Awards.
- Students in the Faculty of Law or the Faculty of Medicine (excluding the Bachelor of Health Sciences program) should refer to the appropriate sections of the calendar for awards specific to students in those faculties.
- Students must normally have successfully completed their most recent Fall and Winter Sessions with a minimum of four and one-half full courses (nine half courses).
- In order to be *considered* for scholarships, students must normally present a minimum GPA of 3.20 and to be *considered* for bursaries, students must normally present a minimum GPA of 2.60.
- Monetary awards, except certain cash prizes, are normally contingent upon the student proceeding with his or her university program in the next Fall and Winter Sessions. Unless otherwise stated in the conditions, awards are payable only when the student is in actual full-time attendance at the University of Calgary.
- The payment of tuition and fees is the first charge against scholarships and bursaries. If the value of an award is stated as "tuition and fees", it is understood not to include differential fees.
- In order that awards may be equitably distributed, no student may normally hold more than one major award in any one year.
- Supplemental, deferred and special deferred examinations or term work may affect eligibility for awards.

The University assumes liability for the payment of scholarships, bursaries, prizes and other awards only to the extent that gifts from donors, or returns from particular investments for these purposes will permit.

As this information is published a considerable time before the opening of the session, the University reserves the right to make whatever changes circumstances may require, including cancellation or addition of particular awards.

**Note:** Medals and awards to graduating students are listed first. All other awards are listed alphabetically.
