

## ADMISSION AWARDS

### General Information and Policies

- Admission Awards are offered to students entering their first year of undergraduate post-secondary studies, who will be admitted to the University of Calgary on the basis of their high school grades.
- Students **MUST** apply for admission in order to be considered.
- Students will be automatically considered for these awards based on their early admission average from their admission application, with the offer being conditional on their final admission average. No separate application is required.
- All qualified high school applicants will be notified of this award in their offer of admission. The award will be confirmed once the final admission average is determined.
- Admission Awards offered by specific faculties are offered to eligible students in addition to the University of Calgary Admission Scholarships.
- Students may receive these awards in addition to any other awards they may receive to a cap as established by the Academic Awards Committee.
- These awards are one-time only and not renewable.
- Awards are open to Canadian citizens, permanent residents, and international students.
- Students must be entering a Fall Session at the University of Calgary.
- Students offered an Admission Award must be registered full time in the upcoming Fall and Winter Sessions to receive award payment. Award payments will then be applied to outstanding tuition. Award recipients must maintain full-time status in both Fall and Winter Sessions to be eligible for the full amount of their award.
- If a student is granted an award, the University of Calgary reserves the right to release pertinent information to award donors, high schools, provincial funding bodies, U of C faculty and administrative offices and public news agents. Specific information may be used for U of C promotional purposes.

Name of Award and Donor	Value	No.	Year Entering	Faculty or Fields of Study	Conditions: no application required. Students are automatically considered based on their admission application.
