"Pine Creek Wastewater Plant"

by Orin Macintyre, P.Eng.

Abstract:

This facility is an essential component of Calgary's wastewater treatment process. The Pine Creek Facility will alleviate existing pressures being placed on the two current wastewater treatment facilities that serve Calgarians – Bonnybrook and Fish Creek. Based on current population projections, Bonnybrook is expected to reach its capacity by 2007 / 2008.

About the Speaker:

Orin graduated from SAIT in 1998 with a Civil Engineering Technology Diploma. Orin also graduated from the University of Calgary in 2002 with a Bachelors of Science in Civil Engineering. Orin joined the Pine Creek WWTP Program Management Group in 2004 as the Offsite - Utilities Project Manager and since then has held positions with progressively increasing responsibility. Currently Orin is the Project Manager for all aspects of the Pine Creek WWTP program.

NOTE: Attendees must provide their own PPE.

**ONLY Persons With Personal Protection Equipment (PPE)
Will Be Allowed on the Tour**

Directions are attached to this notice

The CSCE is a learned society intended to develop and maintain high standards of civil engineering practice in Canada and to enhance the public image of the civil engineering profession.

Tour Schedule:

Tentative schedule is as follows:

4:00 PM – Registration (Free)

4:30 PM – Pizza & Pop

5:00 PM – Presentation

5:30 PM – Start Tour

7:30 PM – End Tour

Visit our local web site at:
