

Renters Insurance

This Renters Insurance product is designed to cover the needs of student residents by protecting their property and liability exposures. A Renters Insurance policy from InsureLine covers you in the event that you cause damage to your unit or residence building as well as personal property if it is damaged or stolen.

Renters Insurance Is Mandatory For Students

- Renters Insurance can protect your valuables, such as laptops or expensive textbooks from theft or damage, providing you with peace of mind that you're covered if something happens. Policies usually cover break-ins, floods, fires, etcetera, and compensate you with an amount to repurchase or repair your property.
- If you leave the stove on and accidentally start a fire or leave the water running and damage the floors and walls, you could be liable. If you don't have insurance to protect yourself, you may end up with a massive bill to foot.
- Various situations could make your residence uninhabitable. A fire could happen in your building, or a burst pipe could leak everywhere. Insurance can help cover any additional living expenses in an emergency.

Policy terms are 1 semester, 2 semesters, and a full calendar year. Terms may be canceled at any time for a pro-rata refund, subject to minimum 25% earned premium.
