Fluid Navigation for Non-Finance Users

Purpose:	This quick reference guide shows you how to navigate FSCM (Finance and Supply Chain Management) functions in the new fluid user interface.					
	PeopleSoft has moved away from the Classic Cascading Menu and all applications will be Fluid, just like HCM (ie. The HR module).					
Audience:	All University of Calgary users who are outside of the Finance Business Unit and use PeopleSoft FSCM to complete some of their daily tasks.					

FSCM will be moving from the Classic Menu to Fluid User Interface. This will mean the cascading menu will be replaced by Homepages and Tiles.

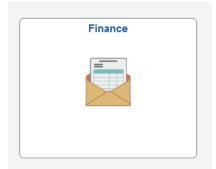

Quick Reference Guide

The way you log in to FSCM (Quick Links or Direct Access) will not change.
