Job Funding Rules

The following matrix was created to help hiring managers understand employee job types and how they are funded within the UCALG and UCALT business units. Fund Codes are the first two digits of a financial chart field and denote the purpose of the fund (e.g. Fund 10 = general/base operating funds).

In general, a job funded from base operating funds (Fund 10) is hired under the UCALG business unit. Jobs being paid from project funds (e.g. Fund 11, 12, 60 or 70) are hired under the business unit UCALT. However, in certain rare situations it may be appropriate for an employee to be hired under UCALG with a recovery from project accounts. For more information on whether that is the correct option for your hire, please contact your Finance Partner and/or HR Talent Acquisition Advisor.

Staff Group	Job Type	Business Unit	Employee Classification (Empl Class)	Allowable Fund Codes
Management & Professional Staff (MaPS)	Regular	UCALG	n/a	10 *
	Temporary	UCALG	- Temporary - Temporary Relief	10 *
