International Students Boarding Connecting Flights in Canada

• **Starting Nov 30, 2021,** travelers must be fully vaccinated with an approved vaccine to board a flight departing a Canadian airport
  • *The list has expanded to include WHO Emergency Use Listings*

• **Exception:** arriving unvaccinated international students may take a connecting flight that is scheduled to depart within 24 hours of the departure time for your flight to Canada
  • Use a valid pre-entry molecular test as long as the scheduled departure time of their domestic flight is within 24 hours of the departure time for their flight to Canada

Updated, Nov 24, 2021
Fully-Vaccinated requirement for International Students: Jan 15, 2022

• After January 15, 2022, international students who are 18 years or older must be fully-vaccinated to enter Canada

• Government of Canada announces adjustments to Canada’s border measures (Nov 19, 2021)
Planning your flight

Considerations you should factor in your travel plans:

1. **When are you arriving?**

   Effective, **November 3rd, 2021**, Canada Border Services Agency (CBSA) will no longer restrict international student arrivals to four (4) weeks before their studies begin.

2. **Are flight costs increasing during winter holiday season?**

   - The cost of airfare typically increases during the Holiday season in December.

3. **Will arrival services be available, should I need assistance at the time of my arrival?**

   - The ISS & University services are closed winter break: Dec 25-Jan 2, 2022.

4. **Does your flight include travel/emergency medical insurance?**

   - If not, when are you purchasing medical insurance (more details to come...)

5. **Do you have enough time between connecting flights?**

   - Arrange at least 3 hours between your arrival in Canada and connecting flight to Calgary: this allows time for you to collect your bags, go through Canadian immigration, clear Canada Customs, complete your Arrival PCR test (if selected/required), and transfer to the domestic terminal for your connecting flight

  - Example: if you arrive in Vancouver, plan a connecting flight to Calgary. Arrange full quarantine time in Calgary.

It is your responsibility to be aware of all travel & quarantine requirements.

*If you have proof of a vaccination that is not approved by Health Canada, still bring a copy with you*
Review your study permit (if applicable)

Note: If you are unvaccinated, you require a study permit as an exchange student.

Ensure:

- Your Name is correct;
- Your Date of Birth is correct;
- Your Country of Citizenship is correct;
- Duration of the study permit is correct.
- Your Study Permit includes a printed condition authorizing you to work 20 hours a week:

Your study permit should state one of the following:

- "May work 20 hours per week off-campus or full-time during regular scheduled breaks if meeting criteria outlined in section 186(v) of IRPR" or
- "May accept employment on or off-campus if meeting eligibility criteria as per R186(f), (v) or (w). Must cease working if no longer meeting these criteria."
Review your study permit

If there are any errors or mistakes, please bring them to the attention of the Border Services Officer before leaving the area.
Review your Visitor Record (if applicable)

If you are vaccinated and entering as a Visitor, an Officer may issue a document called a "visitor record" to document your exchange studies in Canada.

Ensure:

- Your Name is correct;
- Your Date of Birth is correct;
- Your Country of Citizenship is correct;
- Duration of the visitor record is correct.
  - Will be for a period less than 6 months.

Note: As a visitor, you cannot work in Canada.

As a result, your visitor record will state that you cannot work.

*IMPORTANT* An activity may be considered “work” even if it is unpaid. You can read more about what constitutes work [here](#) and [here](#).
If you are vaccinated and entering as a "Visitor," an Officer may allow you into Canada without issuing a visitor record or study permit. If this happens, here's what you need to know:

- You've been admitted as a visitor
- You cannot work in Canada
- The Officer may stamp your passport and either:
  1. Write under the stamp: "SX-----------------[Date]
     - The date marked is the date you must leave Canada by or apply for an extension of your status by.
  2. An Officer may only stamp your passport.
     - This means that you must leave Canada within 6 months or apply for an extension to your status.
- If an officer does not stamp your passport, it is okay. Know that you have been granted entry as visitor and must leave Canada within 6 months from the date of entry.
