**Work regulations for spring and summer terms**

**Undergraduate** international students who were registered for full-time studies during the winter term and who will be registered full-time for fall 2021 are **eligible to work full-time** from May to August 2021, as spring and summer are considered scheduled breaks.

Most **graduate** international students do not have scheduled breaks for the spring and summer terms. They're registered as a full-time student all year long throughout their program, regardless if they take courses or not. As such, they are restricted to **only 20 hours a week off-campus** as a full-time student.

Confirm with your **program advisor** if your program has a scheduled break or review your **program description** in the academic calendar.

To determine when your term starts and ends, please refer to the **term start date** and the **term end date** in the academic calendar.

For more information on work regulations please review our ISS webpages on **working in Canada** and **post-graduation work permits**. For questions, please contact our immigration advisors at **issimmigration@ucalgary.ca**.
