

A Message from the President

This is a time of unparalleled opportunities for well-educated university graduates. The economy and workplace require, and are increasingly dependent on, knowledgeable individuals who have the capacity to learn continuously, adapt to new situations and work with others. Those with a university education are best positioned to deal with the complexities and challenges of modern society. Never has a university education been more important or valuable.

At the University of Calgary, we provide dynamic life and learning experiences that prepare our students for successful lives and careers. Building on the research excellence of the University, we have re-designed our curricula to promote lifelong learning skills, especially the abilities to investigate, understand and solve difficult and complex problems. The University of Calgary is one of Canada's research universities; as such, you will have the opportunity to study and learn alongside some of the world's most accomplished researchers and scholars. University of Calgary students graduate with the competencies they need to be successful wherever they go.

The University of Calgary is located in a vibrant, enthusiastic, world-class Olympic city that enjoys one of the fastest-growing economies and populations in North America. Many of our students get a head start on their working careers through numerous internship and co-operative education opportunities, that may be in downtown Calgary or in some far corner of the world. The quality of a University of Calgary education is well recognized and is the reason why so many students seek their university education from us.

I invite you to come to the University of Calgary and share in an exciting academic experience that will help set you up for success.

Harvey P. Weingarten
President and Vice-Chancellor

Welcome from the Students' Union

As an undergraduate student at the University of Calgary, you are automatically a member of the Students' Union. The purpose of the Students' Union is to provide services for students that would not otherwise be provided under the University's mandate, as well as to ensure that students' interests are represented at the University and at the civic, provincial and federal government levels.

Every February, undergraduate students at the University of Calgary elect 21 people to the Students' Legislative Council, the body that ensures students are being properly represented and served. Students also elect representatives from their respective faculties to sit on the Student Academic Assembly, which represents students' academic interests. The Students' Union is involved in everything from providing entertainment activities to political lobbying to offering academic advice and advocacy. The SU also manages MacEwan Student Centre as well as several businesses that cater to students, such as Bound and Copied, Stor, and the Den and Black Lounge.

One of the best ways to enrich your university experience is to become involved. This could mean anything from sitting on a committee, to volunteering time to help out with elections, to just letting us know what you think so that we may better represent you. We also run Volunteer Services which provides a number of other ways to become active, both on and off-campus.

For more information on the Students' Union refer to the Campus Life section of this Calendar, or better yet, drop by our office in MacEwan Student Centre, room 251, contact us at 220-6551, or check out our home page at:

www.su.ucalgary.ca

We look forward to hearing from you, and best of luck this year!
