The funding page in IRISS was revised on November 3, 2016. The Principal Investigator is responsible for the accuracy of funding information within an application. The “Manage My Funding” activity allows study teams the ability to address new mandatory questions that have been implemented in IRISS.

Note that:

1. The “Manage My Funding” activity is available from November 3, 2016 until January 19, 2017. After this date, a formal modification will be required to update this information.
2. This activity is available when the study is in state "Approved".
3. For REB applications, this activity is available to the PI and Study Coordinators, Research Nurse or Research Assistant.
4. For ACC applications, this activity is available to the PI, Primary Admin Contact, Co-Investigators, Lab Managers and Study Support Staff
5. If you need to update your application with a new funding source, the PI must submit a formal modification.

“Manage My Funding” is found under “My Activities” in your study workspace:

Unfunded: funding not required, using personal funds, etc.
Funded: Grant, sub grant, industry sponsored, contract, internal funds, donation or some other source of funding.

Grant (external): Funding from non-industry awards, Foundation grants, Peer-Reviewed Grants (Examples: CIHR Grants, NIH Grants)
Contract (Industry-sponsored / for-profit organization): Funding provided through industry grants, awards, and gifts or similar
Internal Funds (start-up funds, operational): Funding from investigator contingency accounts and all Faculty and Departmental internal funds
Service Agreement: An agreement to pay for or provide a specific service (Example: Pharmaceutical company provides the drug for your study)
Cooperative Groups: Funding from a large network of researchers, physicians, and health care professionals at public and private institutions who are members of the group involved in clinical research (Example: National Cancer Institute of Canada (NCIC-CTG))
Other: Donations, crowd sourcing, charitable donation, etc.
Funding ID: the project number assigned to your funds administered through the Research Services Office (RSO), number associated with your contract/agreement for industry sponsored funding, etc.

Funding Project Title: the title that was used for your funding.

Agency/Sponsor: select the agency/sponsor from the database. If the agency/sponsor is not in the database, add it to section 3.1

Funding Award Status: Pending – if your funding has been applied for but has not been awarded/confirmed yet; Awarded - if you have received your notice of award or confirmation.

University of Calgary – Research Services Office (RSO): administers grants, prizes and awards, as well as internal funding (e.g. CIHR, PostDoc Awards, etc.)

University of Calgary – Legal, Research Services, Cumming School of Medicine (CSM Legal): administers industry sponsored funding

Other: funds managed by private practice (not administered through any of the organizations named above)

Health Canada – involved with any project involving a drug, device, biologic, vaccine, natural health product, radiopharmaceutical

US FDA or DHHS – involved with any project involving funding, sites, participants, sponsor, and/or drug/device from the US

EMA – Involved with any project involving funding, sites, participants, sponsor, and/or drug/device from the European Union
