

SUMMARY

There have been nine positive cases of covid-19 identified on campus today.

CASE A

An individual who spent time in the Health Sciences Centre tested positive for covid-19. Their infectious window on campus was January 12, 13 & 14. Contact tracing is complete and two close contacts have been identified.

LOCATION AND DATE(S)

January 12

- 08:30 — 16:30: HSC

January 13

- 08:30 — 16:30: HSC

January 14

- 08:30 — 16:30: HSC

CASE B

An individual who spent time in the Engineering Building and the Vitruvian space tested positive for covid-19. Their infectious window on campus was January 14. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 14

- 09:00 — 17:00: ENB
- 11:30 — 13:00: Vitruvian space

CASE C

An individual who spent time in the Health Science Centre tested positive for covid-19. Their infectious window on campus was January 16. Contact tracing is complete and two close contacts have been identified.

LOCATION AND DATE(S)

January 16

- 08:30 — 18:30: HSC

CASE D

An individual who spent time in the Heritage Medical Research Building tested positive for covid-19. Their infectious window on campus was January 16. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 16

- 08:00 — 19:00: HMRB

CASE E

An individual who spent time in the Physical Plant, Science B, Energy Environment Experiential Learning Building and the Calgary Centre for Innovative Technology tested positive for covid-19. Their infectious window on campus was January 13. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 13

- 08:30 — 10:00: Physical Plant
- 10:00 — 10:30: SB
- 10:30 — 11:00: EEEL
- 11:00 — 12:00: CCIT

CASE F

An individual who spent time in the Central Heating and Cooling Plant tested positive for covid-19. Their infectious window on campus was January 10. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 10

- 07:30 — 16:00: CHCP

CASE G

An individual who spent time in the Health Science Centre tested positive for covid-19. Their infectious window on campus was January 17. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 17

- 08:30 — 09:30: HSC

CASE H

An individual who spent time in Kananaskis Hall, the Dining Centre and the Taylor Family Digital Library tested positive for covid-19. Their infectious window on campus was January 17. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 17

Kananaskis Hall

- 12:00 — 13:00: Dining Centre
- 13:30 — 17:00: TFDL

CASE I

An individual who spent time in the Dining Centre tested positive for covid-19. Their infectious window on campus was January 18. Contact tracing is complete and no close contacts have been identified.

LOCATION AND DATE(S)

January 17

- 12:00 — 13:00: Dining Centre

STEPS TAKEN

Areas where the individuals are known to have spent time are being deep cleaned.

UCalgary has created [covid safe guidelines](#) to support our campus community. Students, faculty and staff are required to either attest they are fully immunized against Covid-19 in order to be on campus. UCalgary also requires individuals on campus to wear face coverings when in public locations or unable to distance. Visitors to campus will also be expected to comply with the university's program.

Please do not come to campus if you are experiencing cold or flu-like symptoms and go home immediately if symptoms develop while you are on campus. If you have been exposed to someone with covid-19, and you are not fully immunized please protect others by staying home.

If you have covid-19, please inform UCalgary by filling out the [webform](#) so we can help you to inform others with whom you may have been in close contact. Close contacts should monitor for covid-19 symptoms; isolate and be tested for covid-19 if symptoms develop.

As per exposure criteria established by Alberta Health Services, a close contact is anyone who, during the infectious period has lived with or was within two metres of a person who has covid-19 for 15 minutes, even if a non-medical mask was worn during that contact. This includes cumulative contact where multiple interactions add up to 15 minutes or more. A close contact could also be someone who had direct physical

contact (handshake, hugging, kissing) with an infectious person or direct contact with their bodily fluids, such as being coughed or sneezed on. [Learn more.](#)

The best protection against covid-19 is to be fully vaccinated. [Learn more.](#)
