LOCATION AND DATE(S)

January 23

International House

- 15:00 — 16:00: IH 4th floor kitchen

STEPS TAKEN

Areas where the individuals are known to have spent time are being deep cleaned.

UCalgary has created [covid safe guidelines](#) to support our campus community. Students, faculty and staff are required to either attest they are fully immunized against Covid-19 in order to be on campus. UCalgary also requires individuals on campus to wear face coverings when in public locations or unable to distance. Visitors to campus will also be expected to comply with the university's program.

Please do not come to campus if you are experiencing cold or flu-like symptoms and go home immediately if symptoms develop while you are on campus. If you have been exposed to someone with covid-19, and you are not fully immunized please protect others by staying home.

If you have covid-19, please inform UCalgary by filling out the [webform](#) so we can help you to inform others with whom you may have been in close contact. Close contacts should monitor for covid-19 symptoms; isolate and be tested for covid-19 if symptoms develop.

As per exposure criteria established by Alberta Health Services, a close contact is anyone who, during the infectious period has lived with or was within two metres of a person who has covid-19 for 15 minutes, even if a non-medical mask was worn during that contact. This includes cumulative contact where multiple interactions add up to 15 minutes or more. A close contact could also be someone who had direct physical contact (handshake, hugging, kissing) with an infectious person or direct contact with their bodily fluids, such as being coughed or sneezed on. [Learn more.](#)

The best protection against covid-19 is to be fully vaccinated. [Learn more.](#)
