

**SUMMARY**

There have been eight positive cases of covid-19 identified on campus today.

**CASE A**

An individual who spent time in The Taylor Family Digital Library tested positive for covid-19. Their infectious window on campus was January 27. Contact tracing is complete and two close contacts have been identified.

**LOCATION AND DATE(S)**

January 27

- 8:30 — 16:30: TFDL

**CASE B**

An individual who spent time in the Crowsnest Hall, the Health Research Innovation Centre, and the McEwan Student Centre tested positive for covid-19. Their infectious window on campus was January 24, 25, 26, 27, & 28. Contact tracing is complete and close contacts have been identified.

**LOCATION AND DATE(S)**

January 24

Crowsnest Hall

- 10:00 — 17:00: HRIC

January 25

Crowsnest Hall

- 10:00 — 17:00: HRIC

January 26

Crowsnest Hall

- 10:00 — 17:00: HRIC
- 11:00 — 12:00: MacHall

January 27

Crowsnest Hall

- 10:00 — 17:00: HRIC

January 28

Crowsnest Hall

- 10:00 — 17:00: HRIC

### **CASE C**

An individual who spent time in Aroura Hall, and the Taylor Family Digital Library tested positive for covid-19. Their infectious window on campus was January 29. Contact tracing is complete and two close contacts have been identified.

#### **LOCATION AND DATE(S)**

January 29

Aroura Hall

- 15:45 — 16:15: TFDL

### **CASE D**

An individual who spent time in Cascade Hall, and the McEwan Student Centre tested positive for covid-19. Their infectious window on campus was January 25. Contact tracing is complete and close contacts have been identified.

#### **LOCATION AND DATE(S)**

January 25

Cascade Hall

- 13:00 — 14:00: MacHall

### **CASE E**

An individual who spent time in the Earth Science Building and the Physical Plant tested positive for covid-19. Their infectious window on campus was January 27, & 28. Contact tracing is complete and one close contact has been identified.

#### **LOCATION AND DATE(S)**

January 27

- 09:00 — 14:00: Earth Science Building
- 08:30 — 16:30: Physical Plant

January 28

- 08:30 — 16:30: Physical Plant

## **CASE F**

An individual who spent time in the Health Sciences Centre tested positive for covid-19. Their infectious window on campus was January 27. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

January 27

- 08:50 — 10:00: HSC

## **CASE G**

An individual who spent time in the Veterinary Science Research Station tested positive for covid-19. Their infectious window on campus was January 28. Contact tracing is complete and two close contacts have been identified.

### **LOCATION AND DATE(S)**

January 28

- 07:30 — 15:00: VSRS

## **CASE H**

An individual who spent time in the Heritage Medical Research Building tested positive for covid-19. Their infectious window on campus was January 26. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

January 26

- 09:00 — 16:00: HMRB

## STEPS TAKEN

Areas where the individuals are known to have spent time are being deep cleaned.

UCalgary has created [covid safe guidelines](#) to support our campus community. Students, faculty and staff are required to either attest they are fully immunized against Covid-19 in order to be on campus. UCalgary also requires individuals on campus to wear face coverings when in public locations or unable to distance. Visitors to campus will also be expected to comply with the university's program.

Please do not come to campus if you are experiencing cold or flu-like symptoms and go home immediately if symptoms develop while you are on campus. If you have been exposed to someone with covid-19, and you are not fully immunized please protect others by staying home.

If you have covid-19, please inform UCalgary by filling out the [webform](#) so we can help you to inform others with whom you may have been in close contact. Close contacts should monitor for covid-19 symptoms; isolate and be tested for covid-19 if symptoms develop.

As per exposure criteria established by Alberta Health Services, a close contact is anyone who, during the infectious period has lived with or was within two metres of a person who has covid-19 for 15 minutes, even if a non-medical mask was worn during that contact. This includes cumulative contact where multiple interactions add up to 15 minutes or more. A close contact could also be someone who had direct physical contact (handshake, hugging, kissing) with an infectious person or direct contact with their bodily fluids, such as being coughed or sneezed on. [Learn more.](#)

The best protection against covid-19 is to be fully vaccinated. [Learn more.](#)
