

Covid-19 Communications

SUMMARY

There have been eight positive cases of covid-19 identified on campus today.

CASE A

An individual who spent time in EEEL and Engineering tested positive for covid-19. Their infectious window on campus was March 17 & 18. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 17

- 07:30 — 11:00: EEEL

March 18

- 12:30 — 17:00: ENE

CASE B

An individual who spent time in the Clinical Skills Building tested positive for covid-19. Their infectious window on campus was March 11. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 11

- 08:30 — 10:00: CSB

CASE C

An individual who spent time in Earth Sciences and ICT tested positive for covid-19. Their infectious window on campus was March 14, 15 & 17. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 14

- 10:00 — 11:30: ES

March 15

- 09:00 — 10:45: ES

March 17

- 18:00 — 20:30: ICT

CASE D

An individual who spent time in Engineering, Science A, the Vitruvian Space and the Dining Centre tested positive for covid-19. Their infectious window on campus was March 18. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 18

- 09:00 — 10:00: ENG
- 10:00 — 11:00: ENC
- 12:00 — 13:00: Dining Centre & Vitruvian Space
- 14:00 — 17:50: SA

CASE E

An individual who spent time in Science A, MacEwan Student Centre, and the Taylor Family Digital Library tested positive for covid-19. Their infectious window on campus was March 16. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 16

- 10:00 — 11:00: SA
- 11:15 — 14:00: MacHall
- 14:00 — 17:00: TFDL

CASE F

An individual who spent time in MacEwan Student Centre, Professional Faculties, Math Sciences, ICT and Social Sciences tested positive for covid-19. Their infectious window on campus was March 16 & 17. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 16

- 10:00 — 13:00: MacHall
- 13:00 — 14:00: PF

March 17

- 09:30 — 11:00: MS
- 12:30 — 13:45: ICT
- 15:30 — 18:00: SS

CASE G

An individual who spent time in Engineering, Murray Fraser Hall and Education Classrooms, tested positive for covid-19. Their infectious window on campus was March 14, 15, 16, 17 & 18. Contact tracing is complete and close contacts have been identified.

LOCATION AND DATE(S)

March 14

- 10:00 — 11:50: ENA

March 15

- 10:00 — 10:50: ENG
- 12:30 — 13:45: MFH
- 14:00 — 15:15: EDC

March 16

- 10:00 — 11:50: ENA

March 17

- 10:00 — 10:50: ENG
- 12:30 — 13:45: MFH

March 18

- 10:00 — 11:50: ENA

CASE H

An individual who spent time in Rundle Hall and the Dining Centre tested positive for covid-19. Their infectious window on campus was March 17. Contact tracing is complete and two close contacts have been identified.

LOCATION AND DATE(S)

March 17

Rundle Hall

- 13:00 — 14:00: Dining Centre
- 17:00 — 18:00: Dining Centre

STEPS TAKEN

UCalgary requires individuals on campus to wear face coverings when in public locations or unable to distance. Visitors to campus will also be expected to comply with the university's program.

Please do not come to campus if you are experiencing cold or flu-like symptoms and go home immediately if symptoms develop while you are on campus. If you have been exposed to someone with covid-19, and you are not fully immunized please protect others by staying home.

If you have covid-19, please inform UCalgary by filling out the [webform](#). Close contacts should monitor for covid-19 symptoms; isolate and be tested for covid-19 if symptoms develop.

As per exposure criteria established by Alberta Health Services, a close contact is anyone who, during the infectious period has lived with or was within two metres of a person who has covid-19 for 15 minutes, even if a non-medical mask was worn during that contact. This includes cumulative contact where multiple interactions add up to 15 minutes or more. A close contact could also be someone who had direct physical contact

(handshake, hugging, kissing) with an infectious person or direct contact with their bodily fluids, such as being coughed or sneezed on. [Learn more.](#)

The best protection against covid-19 is to be fully vaccinated. [Learn more.](#)
