

## Covid-19 Communications

### **SUMMARY**

There have been sixteen positive cases of covid-19 identified on campus today.

### **CASE A**

An individual who spent time in Cascade Hall, and the Dining Centre tested positive for covid-19. Their infectious window on campus was March 27, 28 & 31. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 27

Cascade Hall

- 11:00 — 18:00: Cascade floor 2 lounge

March 28

Cascade Hall

- 10:00 — 11:00: Dining Centre
- 21:00 — 21:10: Cascade main lobby

March 31

Cascade Hall

- 20:50 — 21:00: Cascade Hall Lobby

### **CASE B**

An individual who spent time in Reeve Theatre, Science Theatre, Matthews Theatre, and Craigie Hall tested positive for covid-19. Their infectious window on campus was March 30 & April 1. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 30

- 08:30 — 11:00: RT
- 11:00 — 12:15: ST

April 1

- 08:30 — 10:00: RT
- 10:00 — 10:15: Mathews Theatre
- 10:15 — 11:45: CH

### **CASE C**

An individual who spent time in Glacier Hall and MacEwan Student Centre tested positive for covid-19. Their infectious window on campus was April 1. Contact tracing is complete and close contacts have been identified.

#### **LOCATION AND DATE(S)**

April 1

Glacier Hall

- 15:30 — 16:00: MacHall

### **CASE D**

An individual who spent time in the Clinical Skills building tested positive for covid-19. Their infectious window on campus was April 1. Contact tracing is complete and close contacts have been identified.

#### **LOCATION AND DATE(S)**

April 1

- 08:30 — 17:00: CSB

### **CASE E**

An individual who spent time in the Health Science Centre tested positive for covid-19. Their infectious window on campus was March 30. Contact tracing is complete and close contacts have been identified.

#### **LOCATION AND DATE(S)**

March 30

- 10:00 — 16:00: HSC

## **CASE F**

An individual who spent time in The Landing and Biological Sciences tested positive for covid-19. Their infectious window on campus was March 30. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 30

- 11:00 — 12:00: The Landing
- 13:00 — 18:00: BI

## **CASE G**

An individual who spent time in Kinesiology and the Taylor Institute for Teaching & Learning tested positive for covid-19. Their infectious window on campus was March 29 & April 3. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 29

- 10:55 — 12:15: KNA

April 3

- 13:45 — 15:15: TI

## **CASE H**

An individual who spent time in the Taylor Institute for Teaching & Learning tested positive for covid-19. Their infectious window on campus was March 30. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 30

- 14:00 — 15:00: TI

## **CASE I**

An individual who spent time in the Suncor Building (Mechanical Engineering) and MacEwan Student Centre tested positive for covid-19. Their infectious window on campus was March 31. Contact tracing is complete and close contacts have been identified.

## **LOCATION AND DATE(S)**

March 31

- 09:00 — 17:00: MEB
- 13:00 — 14:00: MacHall

## **CASE J**

An individual who spent time in Kinesiology and the Vitruvian Centre tested positive for covid-19. Their infectious window on campus was April 1. Contact tracing is complete and close contacts have been identified.

## **LOCATION AND DATE(S)**

April 1

- 08:00 — 09:00: KNA
- 12:30 — 13:00: Vitruvian Centre

## **CASE K**

An individual who spent time in Biological Sciences tested positive for covid-19. Their infectious window on campus was March 24. Contact tracing is complete and close contacts have been identified.

## **LOCATION AND DATE(S)**

March 24

- 11:00 — 12:15: BI
- 14:00 — 18:00: BI

## **CASE L**

An individual who spent time in the Physical Plant tested positive for covid-19. Their infectious window on campus was April 1. Contact tracing is complete and close contacts have been identified.

## **LOCATION AND DATE(S)**

April 1

- 09:00 — 16:00: PP

## **CASE M**

An individual who spent time in the Health Sciences Centre tested positive for covid-19. Their infectious window on campus was April 1. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

April 1

- 09:00 — 17:00: HSC

## **CASE N**

An individual who spent time in Crowsnest Hall and MacEwan Student Centre tested positive for covid-19. Their infectious window on campus was April 4. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

April 4

Crowsnest Hall

- 09:00 — 09:15: MacHall

## **CASE O**

An individual who spent time in Professional Faculties tested positive for covid-19. Their infectious window on campus was April 1 & 2. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

April 1

- 14:00 — 18:00: PF

April 2

- 11:30 — 14:00: PF

## **CASE P**

An individual who spent time in Kinesiology tested positive for covid-19. Their infectious window on campus was March 31 & April 1. Contact tracing is complete and close contacts have been identified.

### **LOCATION AND DATE(S)**

March 31

- 12:00 — 13:00: KNB
- 13:00 — 14:00: KNB

April 1

- 08:00 — 14:30: KNB

## STEPS TAKEN

UCalgary requires individuals on campus to wear face coverings when in public locations or unable to distance. Visitors to campus will also be expected to comply with the university's program.

Please do not come to campus if you are experiencing cold or flu-like symptoms and go home immediately if symptoms develop while you are on campus. If you have been exposed to someone with covid-19, and you are not fully immunized please protect others by staying home.

If you have covid-19, please inform UCalgary by filling out the [webform](#). Close contacts should monitor for covid-19 symptoms; isolate and be tested for covid-19 if symptoms develop.

As per exposure criteria established by Alberta Health Services, a close contact is anyone who, during the infectious period has lived with or was within two metres of a person who has covid-19 for 15 minutes, even if a non-medical mask was worn during that contact. This includes cumulative contact where multiple interactions add up to 15 minutes or more. A close contact could also be someone who had direct physical contact (handshake, hugging, kissing) with an infectious person or direct contact with their bodily fluids, such as being coughed or sneezed on. [Learn more.](#)

The best protection against covid-19 is to be fully vaccinated. [Learn more.](#)
