Leaders’ Guide

The UCalgary COVIDSafe Campus strategy includes:
• rapid testing
• vaccination status
• masking
• access to vaccines on campus

These combined measures provide a layered approach to managing COVID-19.

All UCalgary students, faculty and staff MUST participate in COVIDSafe Campus.

Starting Sept. 1, everyone MUST login to the COVIDSafe Campus web platform.

The platform is hosted by Thrive Health. In it you must:
• Set up an account
• Identify if you are going to be on campus or attend in-person activities
• Declare vaccination status (Are you fully vaccinated? yes, no or prefer not to disclose)
• Enrol in rapid testing, book online appointment, follow instructions to pick up test kits, and upload results

Everyone must have completed these steps by Sept. 14, 2021, to attend in-person activities on or off campus.

Masks

Masks are mandatory indoors where you can’t maintain 2 metres of distance from others.

Compliance

Failure to comply with rapid testing, vaccination status and masking requirements may lead to disciplinary action and removal from campus.

Become a COVIDSafe Champion

We must get 45,000 students, faculty and staff members to comply with COVIDSafe campus.

Everyone needs to do their part.
• Log in and follow the instructions online
• Tell students, staff, and colleagues to complete the steps
• Direct anyone with questions to ucalgary.ca/covidsafe-campus

Only together can we keep UCalgary COVIDSafe.
