#### **Delete apps in settings**

This method works for all versions of Android. The first thing you should do is open the **Settings** menu on your device. After that, open **Apps** or **Application manager** (depending on your device), find the app you want to delete and select it, and then just tap on the **Uninstall** button.

The app will be deleted from your device in a matter of seconds in most cases. Once completed, you'll be directed back to the **Apps** menu.

Please complete all steps as shown below:

1. Open settings on your device (symbol cogwheel)

2. Tap on Apps, Application manager or Apps & Notifications

3. Tap on the UC Emergency App. You may have to scroll to find the UC Emergency app.

#### 4.Tap Uninstall

5. Popup will appear, do you want to uninstall this app? Press ok
