Deleting UC Emergency App on Android Phones

Delete apps in settings

This method works for all versions of Android. The first thing you should do is open the Settings menu on your device. After that, open Apps or Application manager (depending on your device), find the app you want to delete and select it, and then just tap on the Uninstall button.

The app will be deleted from your device in a matter of seconds in most cases. Once completed, you’ll be directed back to the Apps menu.

Please complete all steps as shown below:

1. Open settings on your device (symbol cogwheel)
