

2020 UCalgary International Photo Contest Categories

People: These are your traditional “national geographic” style photos – portraits, or action shots. Remember you have to have permission from your subject to share the photo!

Place: Landscapes, cityscapes or monuments, urban or rural it doesn’t matter but the place is the main focus of this photo.

Study Abroad Campus Life: When you study abroad, the world is your campus! Maybe you had a “classroom” on the beach or you got to take part in a completely different campus tradition at a host university. These are photos that focus on you and some of the unique experiences you had in your “campus” abroad.
