1

Access CIBC Student Pay

Access [CIBC Student Pay's University of Calgary](#) page.

Please note: You do **NOT** need to be a client of CIBC to use this service.

Please note: When making a payment through CIBC Global Pay for Students, be advised all transactions to and from **sanctioned and restricted jurisdictions** are not permitted. If your bank country is not listed on the CIBC Student Pay payment portal, you will need to choose another method of payment not through the CIBC Student Pay portal.

2

Select the items you wish to pay for

Select the country that the payment will be originating from, then select the items you wish to pay for and input the amount. One payment can be made for both residence and tuition, as long as each payment type is selected.

3

Select your method of payment

There are additional fees for selecting the Bank Transfer / Bank Wire options, aside from the exchange rate. These fees are placed by the service provider, not the University of Calgary.

4

Complete the student/payor details and payment

To avoid delays in processing, please ensure you accurately input the student details.

If using a bank transfer / bank wire option, print off the instruction sheet and bring it to your local bank. They will be able to facilitate the transaction. Alternatively, the transaction can be completed with an online banking service.

All payments take processing time to appear posted to your student account depending on the payment type you choose.
