

Bibliography for the European Studies Programme

Former participants have evaluated our European Studies programmes very positively. Besides the stay at different European cities, extra-curricular activities, logistical support by our back office, students appreciate the academic curriculum designed by researchers who indeed work in the academia and departments of the LMU and partner universities.

The following bibliography is their literature advice for the participants of our EU Studies programmes. As an advice, it does not mean that we expect everyone to read every text. But participants may use this list to prepare themselves for each seminar session and to easily find literature to deepen one’s knowledge after class. Feel free to pick and choose texts for learning more on European integration and do not hesitate to contact your lecture to ask for even more literature on the topics that interest you most.
