The **Department of Geography** condemns the longstanding and continued injustices against those marginalized by racism, sexism, homophobia, transphobia, classism, xenophobia, able-bodied normativity, mental health profiling, and other forms of prejudice. We are pained by the fact that injustices are unevenly borne. <https://arts.ucalgary.ca/news/anti-racism-statement>

### **Territorial Acknowledgement**

The Department of Geography would also like to acknowledge the traditional territories of the people of the Treaty 7 region in southern Alberta. The City of Calgary is also home to Métis Nation of Alberta, Region III. <https://www.ucalgary.ca/indigenous/cultural-protocol>

### **Official Course Description**

Field research and reconnaissance survey techniques. Individual and group travel-study combined with formal instruction and seminars.

### **Course Objectives**

This course focuses on the physical environmental context of select locations in Singapore, Cambodia, Vietnam and Thailand. The tremendous variety of physical landscapes included in this itinerary provides spatial settings for diverse studies and comparative analyses. Topics will include climate, regional biogeography, mountain building and degradation, soils of the region, natural resources, fluvial geomorphology, karstic topography, shore line geomorphology, natural hazards and disasters. The course focuses on recourses, environmental problems relating to both natural and human landscapes. This itinerary provides spatial settings for diverse studies and comparative analyses. Topics will include impacts of climate change, land degradation, deforestation, human's current and historical effects on landscapes, water issues, power generation, geothermal and hydrocarbon recourses, natural environmental disturbances, air pollution, and an examination of different agricultural practices. Topics will include the construction of Dams; coal fire power; the impacts of climate change on tropical and subtropical ecosystems; the management of Dams and other river systems; specific environmental problems that have emerged from development; soil management, degradation, and agricultural practices and environmental impacts of tourism development and expansion throughout the region. This course also focuses on the urban environment. Within cities, the main objectives are to provide a geological, climatologic, and hydrologic setting within which the cities exist, to illustrate how historical urbanization has modified this environment, to explore how the historical & contemporary urbanization impacted, and is impacting, vulnerability to climate change, and hazards posed by natural processes, and to assess the urban environment, population, resources, and greenspaces as a functioning ecosystem.

### **Additional Course Information**

#### **Communication and course etiquette:**

Regarding e-mail and other communication with the Instructor and other students. Please make sure your e-mails are polite and respectful. Any abusive or disrespectful e-mails or other communication deemed so will be reported and you may face non-academic or academic misconduct if they are deemed to be abusive or bullying in nature.

The Instructor expects students to show up for class and field excursions. If you missed important information it is best that you attempt to obtain that information from your peers. If it because of illness or other extenuating circumstances contact through TEAMS, or set up an alternate time to meet. Sending e-mails expecting long responses from your Instructor because of your absence may go unanswered. This is especially true immediately before exams or when an assignment is due when the information has been given multiple times in class through TEAMS to the class.

It is a student's responsibility to follow the course schedule and the readings that have been detailed in the course schedule in the outline. This schedule might change through the term so make sure you follow these changes that may be outlined in class. The material in the readings, field excursions, videos and the lectures **are all** testable material regardless if the material in the readings or videos were not covered in the lecture or the lecture covered different material that is not in the readings or videos. You will need to take notes to understand the material. If you have questions about the assignments or course material please see the Instructor through TEAMS.

#### **Academic Accommodations**

It is the student's responsibility to request academic accommodations, according to the university policies and procedures listed in the University Calendar. In this field study course we may not be able to accommodate your accommodation due to facilities and the nature of the program. Please check with the instructor regarding any accommodation requests.

The student accommodation policy can be found at: [www.ucalgary.ca/access/accommodations/policy](http://www.ucalgary.ca/access/accommodations/policy).

Students needing an accommodation because of a disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with

Disabilities: [www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf](http://www.ucalgary.ca/policies/files/policies/student-accommodation-policy.pdf).

Students needing an accommodation based on a protected ground other than disability should communicate this need, preferably in writing, to the Department Head (email: [geograph@ucalgary.ca](mailto:geograph@ucalgary.ca)).

#### **Referencing Standard**

In written work presented in this class, the accepted method for referencing the work of others will be in APA format. Please see

<https://apastyle.apa.org> or

[https://owl.purdue.edu/owl/research\\_and\\_citation/apa\\_style/apa\\_formatting\\_and\\_style\\_guide/general\\_format.html](https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_formatting_and_style_guide/general_format.html)

#### **Resources and Writing support**

Writing skills are not exclusive to English courses and, in fact, should cross all disciplines. The university supports the belief that throughout their university careers students should be taught how to write well, so that when they graduate their writing abilities will be far above the minimal standards required at entrance. Consistent with this belief, students are expected to do a substantial amount of writing in their university courses and, where appropriate, faculty members can and should consider quality of writing as a factor in the evaluation of student work. Please note writing support resources provided by the Student Success Centre

<https://ucalgary.ca/ssc/resources/writing-support> and the library <https://libguides.ucalgary.ca/guides/>

### **University of Calgary Academic Integrity Policy**

Academic integrity is the foundation of the development and acquisition of knowledge and is based on values of honesty, trust, responsibility, and respect. We expect members of our community to act with integrity. The University Calendar includes a statement on the principles of conduct expected of all members of the university community (including students, faculty, administrators, any category of staff, practicum supervisors, and volunteers), whether on or off university property. This statement applies in all situations where members of the university community are acting in their university capacities.
