

Globalink Research Award (GRA) for International Collaborations

Annie Hoang, MSc

Senior Advisor, Calgary

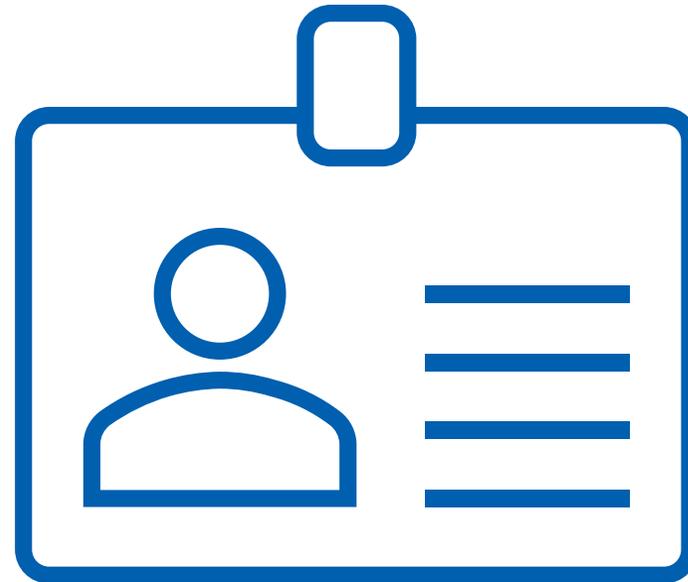

Mitacs & UofC Webinar. Oct 1, 2025

Who's Here Today?

In the chat, please include your position and department/faculty.

- E.g., Assistant Professor, Social Work
- E.g., Master's Student, Physics

Purpose

Mitacs **empowers** Canadian innovation through partnerships that deliver solutions to our most pressing problems. We drive economic growth, productivity, and meaningful change to improve quality of life for all Canadians.

Mission

Mitacs is a **catalyzing force** in the Canadian innovation ecosystem. We will build a world-class, diverse community of innovators through our collaborative model, attracting and deploying top talent to industry, and matching need with expertise to create ambitious solutions to real-world challenges.

Vision

Canadian innovation will create change that **transforms** the world.

Thanks to our funding partners

We Have a New Look!

The screenshot shows the Mitacs website with a blue header. The navigation bar includes links for 'Contact Us', 'News & Events', 'Français', and a 'Get Started' button. The main navigation menu has 'Who We Are', 'Who We Serve', 'Services', 'Programs', and 'Impact'. The main content area features a large blue banner with a photo of a woman in a denim jacket on a city street. The text on the banner reads: 'Globalink Research Award' followed by a paragraph: 'Grow your potential, expand your innovation horizons, build new or strengthen international research collaborations with another university, through the Globalink Research Award (GRA) program. Open to full-time senior undergraduates, graduate students and postdoctoral fellows, the award enables talented researchers to undertake one 12 to 48-week project or two 12 to 24-week projects with a host supervisor inbound to Canada or abroad from Canada.'

- Please note Mitacs' programming is always evolving
- New rules in “**GRA 2.0**” started in April 2025
- **Subject to change**

Our Flagship Programs – *open to all disciplines*

Industry/Community Collaborations*

Accelerate

Research collaboration with an industry or community partner

BSI

Development project with an industry or community partner

Academic (International) Collaborations

Globalink Research Internship (GRI)

International recruitment of undergraduates to Canada

Globalink Research Award (GRA)

International exchange of students to/from Canada

Mitacs Globalink Programs

GRI

Globalink Research **Internship**

GRI is the other main Globalink program:

- Summer cohort (12 weeks) of senior undergraduate students from **specific** countries (**inbound** to Canada only).*
- Highly competitive (full costs covered)
- **For Profs:** Stay tuned for reminder emails next spring! i.e., Apply in spring 2026 for summer 2027 student(s).

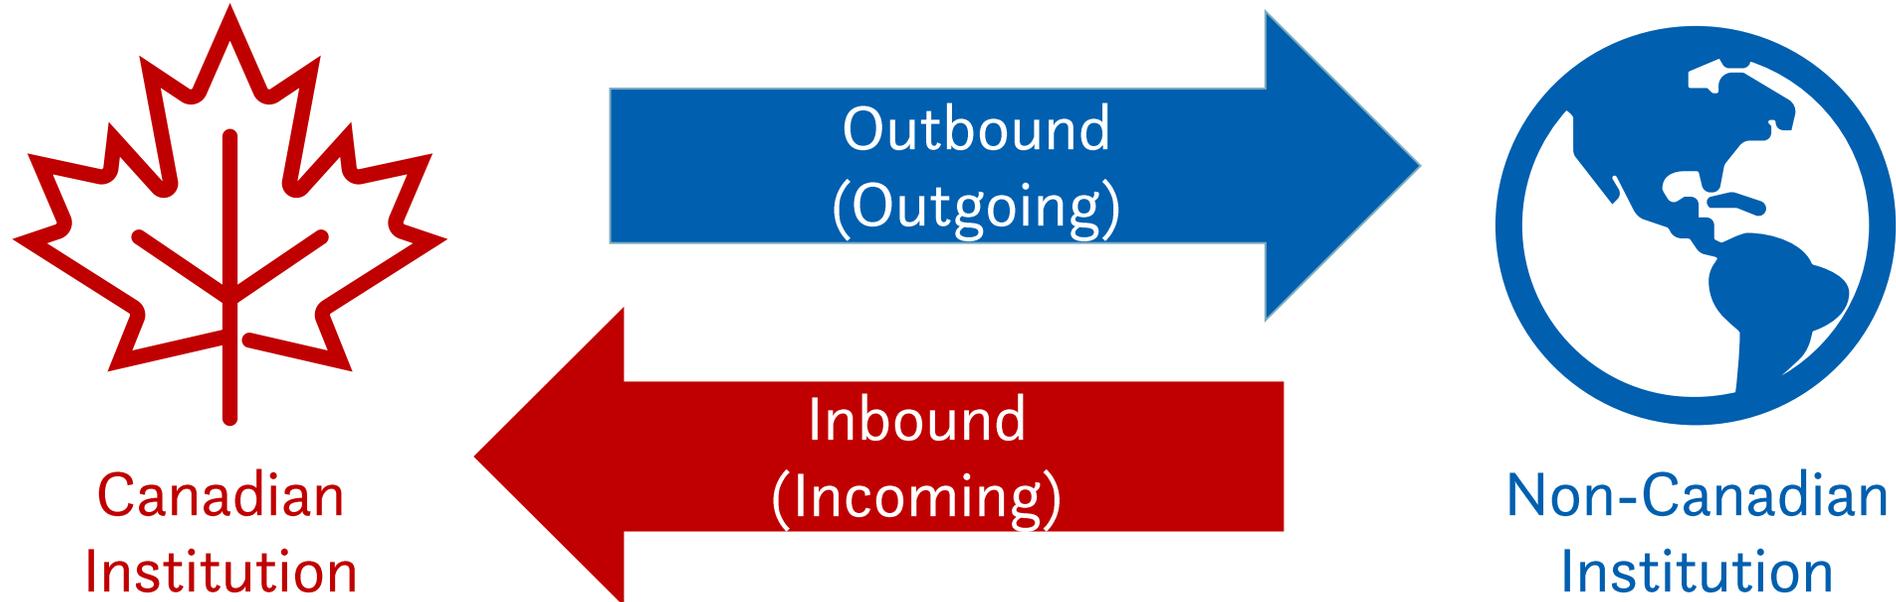

GRA

Globalink Research **Award**

Today's session is all about GRA!

GRA for International Collaborations (Academic)

- Develop or strengthen international collaborations through the exchange of students/post-docs
- Recruitment of international talent

GRA – *The Basics*

Open to full-time senior undergraduate (2nd year and above), graduate students, and postdoctoral fellows

All disciplines

\$6,000 CAD

travel grant
(or more for some special streams)

Academic supervisors in Canada and abroad (home/host supervisors)

Reference letters are no longer required

Travel to Canada or from Canada

Up to 5 students per application*

2 GRA units per lifetime*

12–24 weeks research project

- 75% minimum is spent abroad at the host institution
- 25% maximum is spent at the home institution
- E.g., 12 weeks = 9 weeks (75% min) at the host institution + 3 weeks (25% max) at the home institution

I'm still confused! (FAQs for GRA)

Which GRA stream/call do I apply for?

Is [Country X] or [University Y] eligible for GRA?

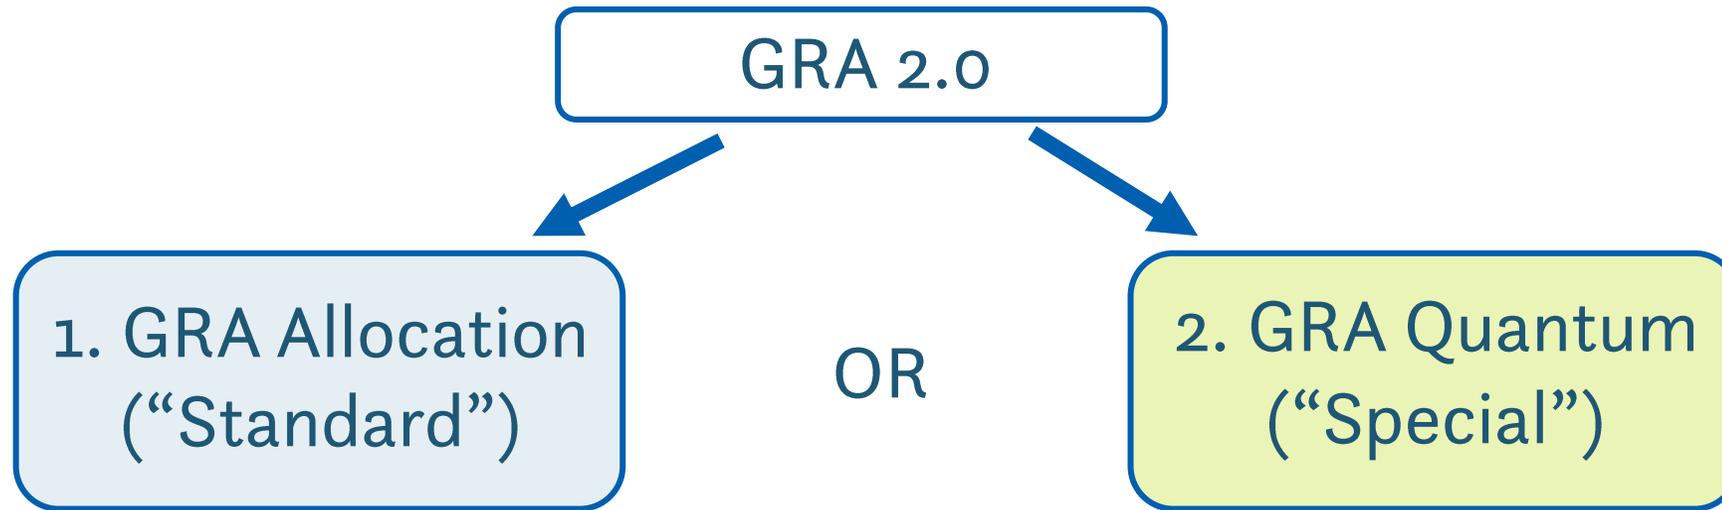

How do I apply?
What are the new rules for GRA 2.0?

How do I obtain an endorsement from the Canadian institution?

GRA 2.0 Streams (as of April 2025)

Subject to change

- All disciplines
- Most countries eligible
- Competitive at UofC due to limited spots
- Call-based model at UofC*
(selected applicants only)

- Quantum or “quantum-adjacent”
- Most countries eligible
- Non-competitive (no limit per school)
- No EOI required before applying at UofC
- Open all year
- Contact a Mitacs Advisor first

Which Countries are Eligible?

Travel advice and advisories by destination

The Government of Canada's official source of travel information and advice, the Travel Advice and Advisories help you to make informed decisions and travel safely while you are outside Canada. Check the page for your destination often, because safety and security conditions may change. See [Travel Advice and Advisories – FAQ](#) for more information.

Where are you going?

Select a destination

Go!

Use this tool for
outbound projects

Legend

Take normal security precautions

Exercise a high degree of caution

Avoid non-essential travel

Avoid all travel

For more details about the [risk levels](#).

- For Outbound/Outgoing – Use travel advisories for GRA “Standard” and GRA Quantum
- For Inbound/Incoming – Most countries are eligible except Russia and North Korea
- Country eligibility is **subject to change**
 - *Note: [Named Research Organizations \(NROs\)](#) are **not** eligible, especially for sensitive research areas*

GRA Quantum Stream

Quantum technology applies the principles of quantum mechanics (Quantum Science) — primarily quantum entanglement, superposition, or tunneling — to build new technologies whose performance depends on one or multiple quantum principles.

The three main verticals include*:

- Quantum computation (hardware), algorithms, and software
- Quantum communication, networks, and cryptography
- Quantum metrology, sensing, imaging, and materials

**Not an exhaustive list. Projects that are “quantum-adjacent” may also be eligible.*

GRA Quantum Stream

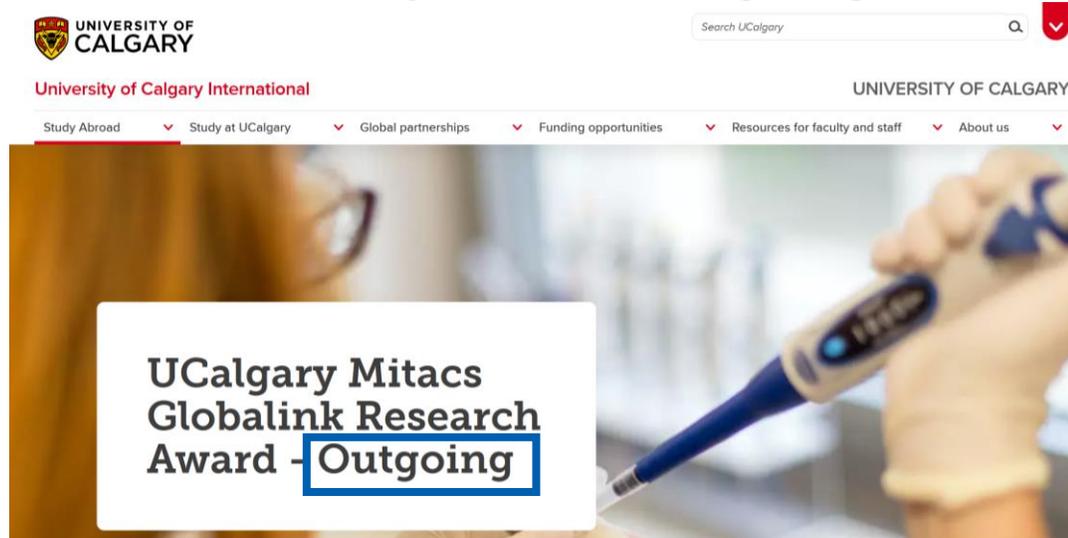

- **\$6,000 CAD** award if the project is between **12-24 weeks**
- **\$12,000 CAD** award if the project is between **24-48 weeks**
- Most countries are eligible, with some exceptions (Refer to Slide 12)
- Non-competitive and open all year

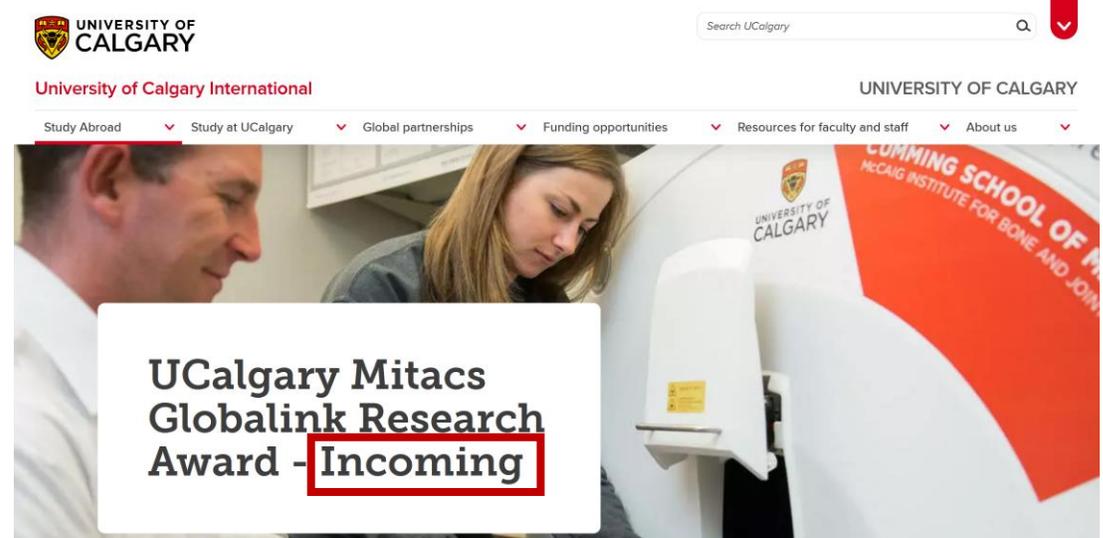

- The “**sweet spot**” is **24 weeks** to qualify for the higher award
- E.g., 24 weeks = 18 weeks (75% min) at the host institution + 6 weeks (25% max) at the home institution

Use the **Specific** GRA Instructions from UofC!

Outbound (*UofC students going abroad*)

Inbound (*Students coming to UofC*)

- The eligibility on the UofC webpages refer to the GRA “Standard” (Allocation) stream, but most of the content (except EOIs) applies for GRA Quantum
- Use the Mitacs GRA webpages for:
 - FAQs, latest updates/changes, etc.

Use the **Specific** GRA Instructions from UofC!

University of Calgary International

UNIVERSITY OF CALGARY

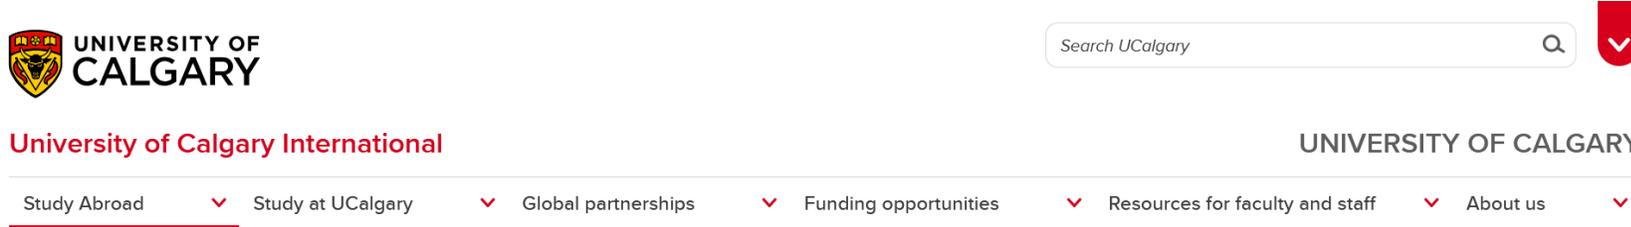

Study Abroad Study at UCalgary Global partnerships Funding opportunities Resources for faculty and staff About us

Application process

Step #1 Confirm your Eligibility	← Please ensure you check the eligibility first!	▼
Step #2 Secure Your Home and Host Supervisor		▼
Step #3 Complete your Mitacs Application	← Only selected applicants proceed to Step 3!	▼
Step #4 Application Submission		▼
Step #5 Application Review by Mitacs		▼
Step #6 Prepare for your Departure		▼
Step #7 Upon Completion of your Project, Submit Required Reports to Mitacs	← No formal final report (do exit surveys instead)	▼

- Remember to choose the correct category on the GRA portal!

Additional Funding Sources

Funding Opportunities

One of the biggest benefits of studying abroad on a University of Calgary program is that you continue to pay tuition and fees to the University of Calgary at the same rates you normally pay. You also remain eligible for [regular UCalgary awards and scholarships](#), and you can take your student loans with you as well.

But that's not all: The University of Calgary is committed to making international opportunities as accessible as possible. As a result, there is almost half a million dollars in UCalgary funding available to students going on UCalgary study abroad programs, not to mention a variety of external awards that may also apply to your program. Start your research early and pay attention to the deadlines so that you don't miss out.

- Students are responsible for **checking all terms and conditions** of other funding sources
- E.g., Faculty of Science IDEAS Fund, NSERC CREATE, external awards (e.g., ThinkSwiss)
- **Cannot** hold a GRA and another Mitacs award at the same time

Examples of GRA Projects with the UofC

1. A PhD student (History) from the UofC travels to the **United Kingdom** to research the legal mechanisms and social structures for land tenures in the 1600's (*GRA Standard Allocation*).

2. A PhD student and an undergraduate (BSc) student (Physics) from the UofC travels to **CERN in Switzerland** to investigate the matter-antimatter asymmetry problem (*GRA Quantum*).

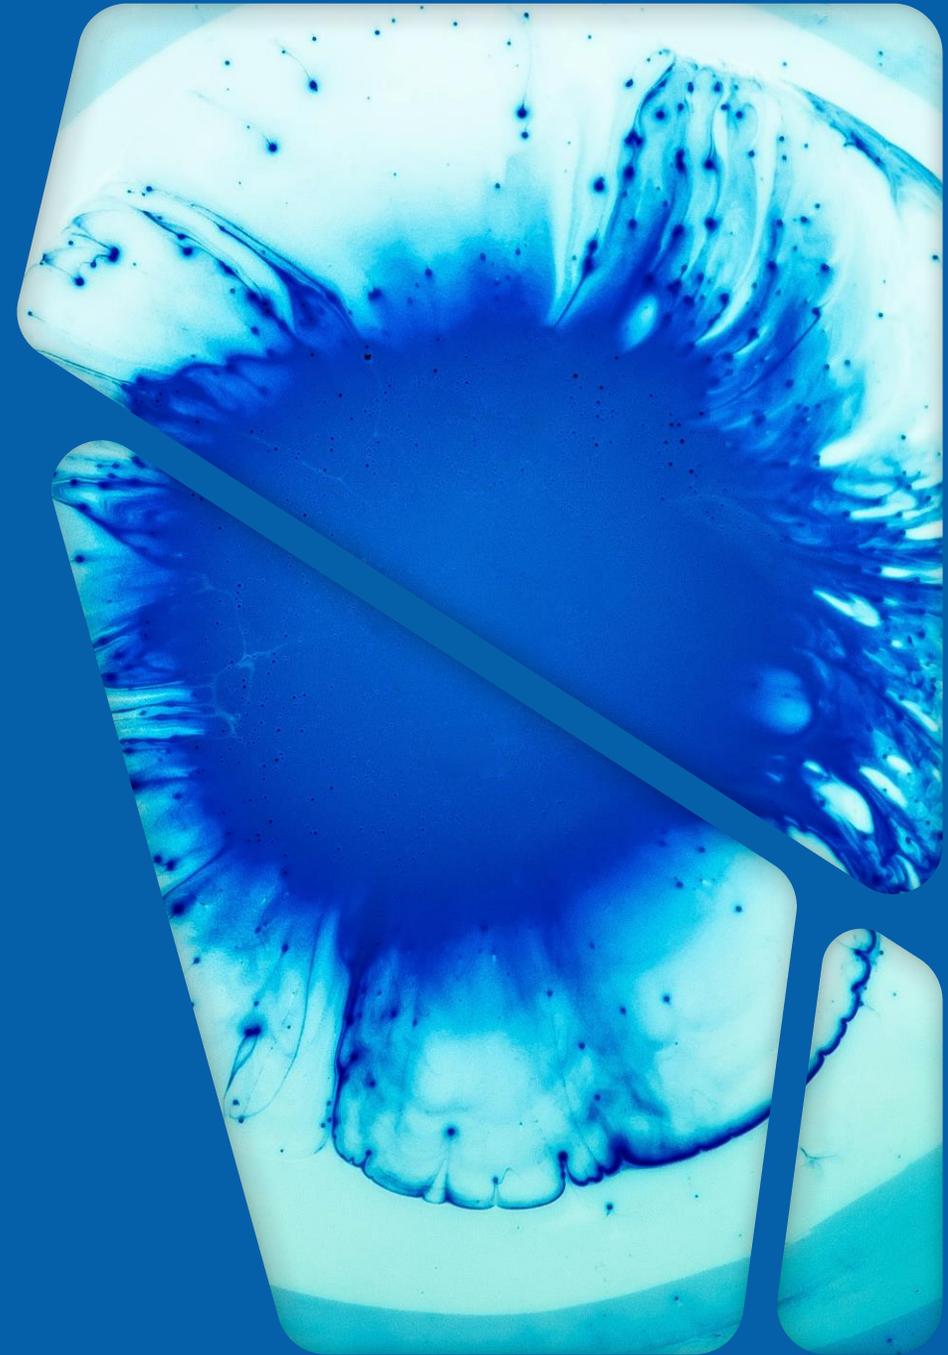

3. A Master's student (MSc, Computer Science) from **South Korea** travels to the UofC to research the impact of user and virtual agents in collaborative work (*GRA Standard Allocation*).

Annie Hoang	ahoang@mitacs.ca	✔ Invitation accepted	✔	⋮
Mitacs GRA Global Learning	MitacsGRA@ucalgary.ca	✔ Invitation accepted	✔	⋮

GRA Application Portal – Proposal (2)

Selected applicants only

The screenshot shows the MITACS Globalink Research Award Application Portal. The header includes the MITACS logo, the text "Globalink Research Award Application Portal", the language "Français", and the user name "Annie Hoang". Below the header, there is a navigation bar with "Return to Dashboard / Project Title: Quantum Computing" and "Status: Draft". A progress bar shows six steps: "Download Application", "Project Overview", "Participants", "Proposal" (highlighted with a green circle), "Internship Budget and Schedule", and "Review Application". Below the progress bar, a red box highlights the text: "* Download the [Proposal template](#) and complete before uploading as a PDF below. Please ensure that you also save a Word copy of the completed document before you Save As a PDF because you may be asked to edit and re-upload later." Below this text is a blue "Upload PDF" button. A red asterisk note below the button reads: "* The system can only process PDF documents. Please ensure you keep a copy of the original (MS Word)."

- **Proposal:** use the latest template (older templates are no longer accepted)
- Use the [Program Guide](#) on the portal's landing page to find proposal tips!
- Follow page limits, do **not** delete section questions, and do **not** change the format
- Research declarations ([Sensitive Technology Research Areas](#) - "If yes, please describe")*

GRA Application Portal – Budget (3)

Selected applicants only

mitacs
Globalink Research Award Application Portal

Annie Hoang

Return to Dashboard / Project Title: Quantum Computing
Status: Draft

Download Application | Project Overview | Participants | Proposal | **Internship Budget and Schedule** | Review Application

- **Internship Budget and Schedule:** see example below
- All GRA projects with UofC: **Allocate all funds as “stipend” (other categories are \$0)**
- Students can use the award for travel/living expenses without doing expense claims

Intern Name	Start and end date	Stipend	Travel and Living Expenses	Research Costs	Total Expenses	Actions
Student Name	Start date – End date	\$6,000	\$0	\$0	\$6,000	⋮
Total		\$6,000	\$0	\$0	\$6,000	

Pre-Submission Feedback (Mandatory)

Selected applicants only

Download Application Project Overview Participants Proposal Internship Budget and Schedule **Review Application**

✓ **Send For Sign-off**
The application is ready for sign-off. Please make sure that individual contact information for academic supervisors and interns are correct.

Don't send for sign-off until you have addressed all feedback from the Mitacs Advisor & UofC Research Security

Review Application (PDF) ~~Send Sign-off Request~~

- **Review Application:** check for any error messages
- Pre-submission feedback from a Mitacs Advisor & UofC Research Security (3-5 business days) is used to check for any issues in the eligibility, budget, proposal, declarations, etc.
 - Once you have no error messages, send a copy of the PDF preview (“Download Application”) of the completed application package to your Mitacs Advisor (e.g., Annie Hoang for UofC) **AND** UofC Research Security researchsecurity@ucalgary.ca

GRA Application Portal – Sign-off (4)

Selected applicants only

7.4 Academic Institution Approval Document

Project:

You or a Mitacs BD advisor can download the Academic Institution Approval Document to collect signatures from the university representatives of the Office of Research Services or International Relations and the Canadian institution Vice-President Research or designated person.

Representatives at the Academic Institution must sign off on the last page of the application.

The professor responsible to execute this project must collect all these signatures, scan each signed page, and upload them to the ORS section of the Mitacs RAP submission page. **Only upload this signature page please.**

Canadian academic institution representative (Office of Research Services or the Office responsible for International)

_____ (Print the name of the University above)	_____ (Print the name of the ORS reviewer or equivalent)
<i>GL TO SIGN HERE</i>	_____ (Print the date of the signature above)
_____ (Signature here with heavy ink pen as this will be scanned)	

Endorsement from the Canadian institution Vice-President Research or designated individual:

_____ (Print the name of the University above)	_____ (Print the name of the ORS reviewer or equivalent)
<i>GL TO SIGN HERE</i>	_____ (Print the date of the signature above)
_____ (Signature here with heavy ink pen as this will be scanned)	

- Once the feedback has been addressed, all participants must sign-off on the GRA portal (will change status to **“completed sign-off”**).
 - *Pre-departure form is submitted **after** project approval (click on “upload later”)*
- Send the PDF preview (click on “Download Application”) to UofC Global Learning (**MitacsGRA@ucalgary.ca**) via email
 - Cc your Mitacs Advisor (Annie) on the email
 - Attach a copy of the research security confirmation to the request email
- **(GRA only)*: UofC Global Learning will be the final signing authority for GRA applications****
 - Upload the final signature page (Section 7.4) to the portal and click on the submit button

**For Accelerate and BSI, the Mitacs Advisor at UofC will obtain the university signature*

*** No RFAA or RMS entry required for GRA applications*

Tips & Tricks

1. **Carefully read** the UofC webpages for GRA, program guide, and FAQs.
2. Address the feedback from the **“pre-submission review”** and UofC Research Security before officially submitting
3. Check **“Step #6”** on the UofC webpages for GRA regarding pre-departure steps
 - Mitacs does **not** advise on visas, permits, immigration, housing, etc.
4. We recommend **~16 weeks in advance**, plus visa processing timelines
 - 12 week review + pre-departure form (after approval) + send travel award to UofC
5. If approved, remember to **“Accept”** the award and **confirm travel dates (AND complete the pre-departure form*)** in order for the Notice of Award (NOA) to be processed by the Mitacs Grants Team (grants-subventions@mitacs.ca)
6. Wait to **receive both the Mitacs Outcome Letter and Notice of Award** from the Mitacs Grants Team before travelling

FYI: Interested in Other Mitacs Programs? (e.g., Accelerate)

Be a catalyst in shaping Canada's knowledge-based economy.

A national, not-for-profit organization that offers funds to support internships for full-time students and postdoctoral researchers.

Mitacs supports collaborative research and innovation projects between industry partners and post-secondary institutions. Eligible industry partners for Mitacs projects can include for-profit companies of all sizes (including startups), non-profit organizations, hospitals and municipalities. This support helps business and community partners to succeed, improves students' on-the-job skills development, and strengthens Canada's world-class innovation ecosystem.

Mitacs programs offer support for paid internships across all industries and all disciplines. Mitacs offers over a dozen different programs. Learn more about the most popular Mitacs programs below, and be sure to check their website for the full range of opportunities.

Mitacs Programs

Accelerate

Accelerate is the flagship program of Mitacs, and is open to undergraduate students, graduate students, and postdoctoral fellows from all disciplines. Accelerate interns will have the opportunity to collaborate with industry on **research-focused** projects. (Student entrepreneurs should contact Mitacs about a special opportunity to apply for funding for their own startups under this program.) Projects can range from four months up to 5 years in length, with funding starting at \$10,000. Applications are accepted throughout the year on a non-competitive basis.

- For research partnerships with eligible **industry/community partner(s) in Canada**
- Must have eligible partner cash for leveraging
- Projects are 4 months - 5 years long and can have multiple interns
- Students/post-docs **cannot** be on multiple Mitacs projects at the same time

Stay tuned for the next part and Q&A!

Thank you

Annie Hoang
