UNIVERSITY OF CALGARY – UNIVERSITY FOR PEACE Canadian Queen Elizabeth II Diamond Jubilee Scholarship (QES) Young Leaders in International Development

Position Description		
Placement title:	Research Assistant (Environment and Development)	
Location:	University for Peace, Mora County, San José, Costa Rica	
Department:	Environment, Development, and Peace	
Duration:	3 months minimum (90 days)	
Start Date:	May 2023	
Project Description:		
	The University for Peace Campus is located 30Km Southwest of San José, within a natural reserve composed of a secondary forest and the last remnant of primary forest (200 ha) in the Central Valley of Costa Rica. The park and the campus are within the protected zone of El Rodeo, in Mora County. UPEACE covers about 2% of the Mora landscape; hence this protected area is rich in fauna and natural resources. UPEACE pursues academic excellence through the systematic and critical study, understanding, and analysis of the causes of multiple problems affecting human and global well-being. UPEACE offers 14 Master's programs and a Doctoral Program at their main campus in the fields of Environment and Development, International Law, and Peace and Conflict Studies.	
	The Intern's time will be distributed mainly into two tasks- graduate-level research work and assistant work; themes will generally revolve around environment and development (e.g. sustainable food systems, climate change, water security, forestry and others). Spanish proficiency is preferred but not required. Experience performing graduate-level research, familiarity with qualitative and quantitative research, and good academic writing are strongly recommended. Intern will support faculty in their research activities, including but not limited to proposal writing, article writing, editing and grant submission.	
	The Intern is expected to be resourceful and have a good knowledge about accessing and effectively utilizing academic resources and databases (ProQuest, Jstor,etc.) and indexed journals in order to contribute with updated as well as specialized information to support their research. The Intern is expected to contribute to recommendations and proposals for data collection as well as supporting faculty members in other research-related and editorial needs.	
Responsibilities:	 Contribute data about scientific journals, assist with data collection and other related tasks as required Facilitate processes of data dissemination, including publications in relevant research journals Edit syllabi (updating and searching new sources) Identify possible sources of funding and assist with proposal writing
